Communications Between GNCC/DNCC

Paul Green

UK Transmission

Distribution Network Sales

Commercial Operations – SOMSA

DNCC Interface

- **Manage NTS Diurnal & Offtake Strategy**
 - Diurnal profile & volume agreed as part of Winter operating plan
 - Achieved by agreeing DN submitted OPN
 - Rate matching as performance measure of OPN
- **Support for Interruption Process**
 - GNCC will provide back up support for Shipper contact if required
- **Manage Flow Flexibility**
 - Flexibility considered with regard to offtake usages & managed through the OPN process

DNCC Interface

- **Site Works – Repair & Maintain**
 - Close working relationship regarding field service call-out & fault reporting
 - Shared call-out information
- **Maintenance activities**
 - Both routine & Non-Routine Maintenance
- **Emergency Management**
 - Local Gas Supply Emergency
 - National Gas Supply Emergency

Summary

- **Provision of Co-operation**
 - Safety First & Up most
- **Good effective Communication**
 - More formal & logged
- **Compliant in accordance with our Obligations**
 - Demonstrated to Regulation
