

Interconnexion France-Angleterre (IFA) Outage

An outage is being taken on the electricity interconnector between the UK and France.

Capability will be nominally **1000MW** in both directions until the evening of **Wednesday 7th October 2009**, after which it will be 1500MW in both directions until the end of Friday 9th October 2009.

The Offered Capacities for Daily and Intraday Auctions will be adjusted accordingly and can be referenced via the public area of the IFA Capacity Management System website.

This outage is in addition to previously published planned maintenance outages.
