Subject: TNUoS 2007/08 Tariffs and Charge information

Dear Tom,

Our thanks to NGC for hosting the meeting yesterday, which we found extremely helpful.

Following the meeting, we wish to record our support for the modified tariffs contained in the document attached to your message below, namely Consultation Document GB ECM 007 (dated January 2007) -"Adjustment of Seven Year Statement Transmission Entry Capacity Data for Calculating 2007/8 TNUoS Tariffs", which document superseded and replaced the tariffs sent to us under cover of the email dated 22 December 2006.

Kind regards
Graham Wayte

Subject: 2007/08 Tariffs and Charge information

Graham,

Firstly, here is a copy of the Consultation that has recently been published concerning the amendment of the 2007/08 Indicative TNUoS Tariffs to remove the three generators which we know have delayed connection dates to outside this charging period:

<<ECM007 2007 Charge Amendment Consultation.pdf>>

This is the link for the Seven Year Statement, which contains a rolling seven year forecast of the contracted generation background which may be useful for the future:

<http://www.nationalgrid.com/uk/Electricity/SYS/>

I have also had a look at our external email distribution list for Charging and haven't been able to find your name or any of your colleagues so I have added your name on. You should now get a copy of all the Charging Amendments and Modifications. These aren't sent out very frequently but if you find they are of not interest please let me know and I can take you off the list.

Regards,

Tom
