

Interconnector Outage Programme 2009/10

There is a programme of planned outages for routine maintenance reasons at various times and of varying lengths on each of the interconnector circuits. Where an outage of 500MW is indicated a further 500MW outage at the beginning and end of each outage will be required, resulting in a brief reduction in the interconnector capability totalling 1,000MW lasting typically less than one hour.

Year	Dates	Capability Reduction (MW)	Duration (days)
2009	1 June – 5 June	500	5
	22 June – 27 June	1,000	6
	7 September – 11 September	500	5
	21 September – 25 September	1,000	5
2010	Week commencing 31 May or 20 September	1,000	TBA
	5 April to 15 May	1,000	TBA
	Week commencing 6 September	500	TBA

Notes

1. Dates (where shown) are inclusive.
2. All dates shown as well as details of exact times and other dates of outages when known will be confirmed to users nearer to the dates concerned.
