Subject: TPL response to the GB Transmission Charging: Final Methodologies consultation

Richard

TPL endorses NGC's recommendation that Scenario B should be adopted because it is a more appropriate solution than Scenario A. TPL believes that the 90:10 split between demand and generation charges is a positive step in moving towards the EU standards for 100% for demand.

If you have any queries, please do not hesitate to contact me on 01642 623089.

Kind regards

Christine
