

SSE's use of national demand data

- National Demand data availability from BMRA.
- Initial out turn data (INDO).
- Forecast data.
- Other sources e.g. SO142 data.
- Other demand data e.g. gas demand.
- How to Get consistent data in a user friendly format.

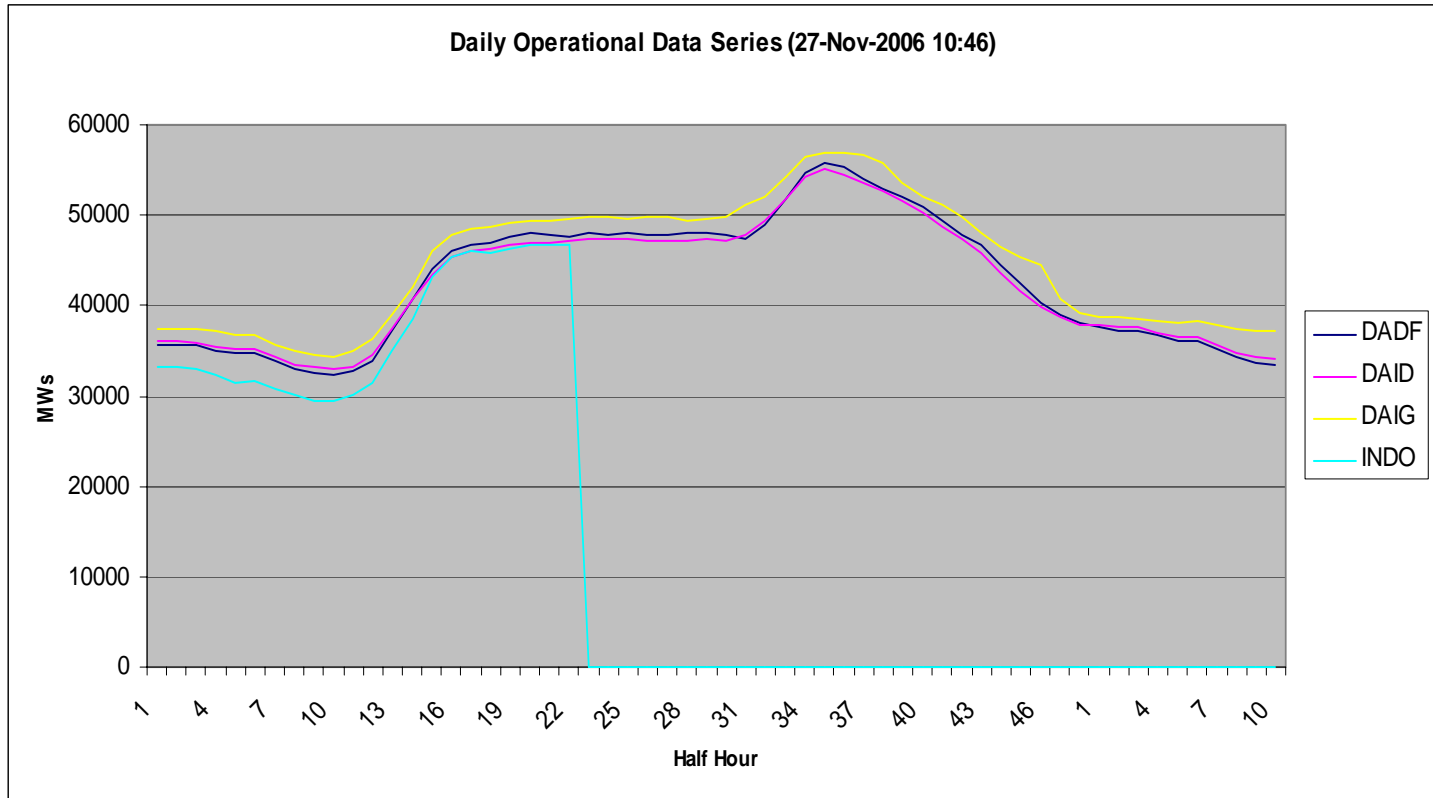

Demand data from BMRA

- INDO.
- Problems of definition.
- Demand forecast.

Daily Operational data.

Data from other sources

- SO142 data.
- How does this data compare with INDO.
- Gas demand from SIS.
- Gas detailed data availability.

How to get consistent data in a user friendly format.

- There are basic requirements - clear definition.
- Customer numbers as well as demand?
- What sort of details would be available.
