27 November 2007

Dear Colleague

### **Rolling Monthly System Entry Capacity Contingency Arrangements Revoked**

With regard to the RMSEC auction to be held on Monday 29<sup>th</sup> October for November 2007 capacity National Grid had put in place contingency arrangements for this auction. Please note that National Grid is now revoking code contingency processes for the auction due to the re-instatement of Gemini.

The RMSEC auction will now be carried out in Gemini and users that wish to participate in the auction should log onto Gemini and bid in the normal manner.

Please note that this message is being sent by web-fax (business hours and out of hours operational lists). The delivery notification audit report will be considered as evidence of receipt. It will also be issued via the Joint Office and posted to the National Grid news area of the website.

If you have any queries about the auction process please contact me on 01926 655 342.

Yours sincerely

Chris Gumbley
