

UNC Modification Update: 0052

13th December 2005

nationalgrid

Mod 0052 – SWCQ Trades

- ◆ In event of National Gas Supply Emergency
- ◆ Applicable for Safety Monitor Breach
- ◆ Storage Withdrawal Curtailment Quantity (SWCQ) is the quantity the shipper is unable to use as a result of the emergency because the NEC has directed storage operators to limit or suspend the withdrawal of gas.

Mod 0052 – SWCQ Trades

- ◆ Shipper Calculates SWCQ.
- ◆ Shipper Places NBP Trade BUY Nomination on Gemini for SWCQ and telephones National Control Centre
- ◆ GNCC performs check against Agg. deliverability of storage facility
- ◆ Within 1 hour GNCC either Matches trade OR
- ◆ Rejects trade and informs shipper.
- ◆ Shipper completes Statement Proforma's CQSCP and SWCQ and submits to National Grid.
sysop_centre_issues@uktransco.com or fax to 01926 656616, (though no responsibility can be accepted by National Grid or it's Agents for any inaccurate transcription if non electronic proformas are received)
- ◆ Reconciliation process is carried out by National Grid.
- ◆ Data is sent to xoserve for Billing.

Mod 0052 – Gemini Activities

STORAGE

- ◆ Shipper needs to set up a new Entry activity (NBP to NBP)
- ◆ OBO BA: Storage Withdrawal EC Manager ACC (SWW)
- ◆ Shipper places NBP Trade BUY Nomination on Gemini for SWCQ against the Entry Activity above.
- ◆ GNCC matches trade associated to SWW BA.
- ◆ Shipper should check trade is matched on Gemini/OCM/Trade Details/OCM OTC trade details.
- ◆ Proformas and procedures will be published shortly on the National Grid website.
