## **Vision**

To be at the heart of a clean, fair and affordable energy future.

## **Values**

Every day we... do the right thing, find a better way and make it happen.

Bring Energy to Life

## **Strategy**

To build, own and operate large-scale, long-life energy assets primarily in networks and renewables that deliver fair returns and high societal value. Our portfolio of high quality, low risk assets in stable geographies will be underpinned by a strong and efficient balance sheet.

## **Priorities**

Enable the energy transition for all

Deliver for our customers efficiently

Grow our organisational cpability

Empower our people for great performance
