

An open letter to our suppliers

To all of our suppliers,

We hope that you continue to remain safe and well.

In recent weeks, we have worked closely with the Government to assess which of our work we should continue. Please rest assured that, across the whole of National Grid Group, we are working hard to make sure the lights stay on and the gas keeps flowing. Find out more about our response to coronavirus [here](#).

If the supply chain is likely to be affected by this, we will contact you directly. We will also update you directly on any specific changes to projects or demand.

If you have any questions or concerns regarding your ongoing supply to National Grid or you wish to seek an update, please feel free to contact us. If you are unsure of who to speak to, you will find a list of contacts [here](#).

We recognise that these are uncertain times, and we would like to take this opportunity to thank you for your support and patience which is enabling us to work through our plans. It has never been more important that we continue to work closely.

Yours sincerely,

The National Grid Procurement team
