Outlook

- For 2020/21, we continue to assume an impact on Group underlying operating profit of around £400 million from COVID-19. However, given regulatory mechanisms and precedents, we expect to recover a large part of this.
- We will continue to focus on customer affordability, safety and reliability across our networks as we work with regulators on agreeing new frameworks in the US and UK.
- We will continue to place a sharp emphasis on efficiency across the business, and through our Responsible Business Charter we have underlined our commitment to our environmental goals, whilst supporting employees and communities across our jurisdictions.
- We expect asset growth towards the top end of its target range of 5-7% in the near term, assuming RPI at 3%, with capital investment for FY21 around £5 billion.
