# Annual Report and Financial Statements

For the year ended 31 March 2019

## Strategic Report

## For the year ended 31 March 2019

The Directors present their Strategic Report on NGG Finance plc ('the Company') for the year ended 31 March 2019.

### Review of the business

The Company obtains and provides finance to its parent company, National Grid plc, via external borrowings and intercompany balances.

### **Executive summary**

The Company currently has in issue two fixed rate bonds listed on the London Stock Exchange with notional values of £1,000 million and €1,250 million. The consideration received from these bonds in March 2013 was advanced to its immediate parent company, National Grid plc, on the same terms to that of the securities. The Company continues to receive interest on intercompany loan assets with its immediate parent on activities prior to the issue of these current bonds.

There were no significant changes in the Company's external borrowings or intercompany balances.

Results, as detailed below, largely depend on interest received offset by interest payable both of which include foreign exchange movements on the revaluation of the euro security and the euro intercompany loan.

### Results

The Company's profit for the financial year was £7,027,000 (2018: £5,403,000 profit).

### **Financial position**

The financial position of the Company is presented in the balance sheet. Total shareholders' equity at 31 March 2019 was £662,571,000 (2018: £655,544,000) comprising current assets of £2,877,766,000 (2018: £2,887,590,000) less current liabilities of £141,820,000 (2018: £140,217,000) less creditors falling due after more than one year of £2,073,375,000 (2018: £2,091,829,000).

### Key performance indicators and principal risks and uncertainties

As the Company is part of a larger group, the management of the Company does not involve the use of key performance indicators, other than the profit or loss for the year, in measuring the development, performance or the position of the Company and the principal risks and uncertainties are integrated with the principal risks of National Grid plc. For information on the development, performance, risks, uncertainties and position of National Grid plc and its subsidiaries ('National Grid'), and of the key performance indicators used, refer to the Strategic Report included in National Grid plc's Annual Report and Accounts 2018/19, which does not form part of this report.

### Future developments

The Directors do not foresee a change in the activities of the Company.

The Strategic Report was approved by the Board of Directors and was signed by order of the Board on its behalf by:

on

M Barnes Company Secretary 8 August 2019

1

## **Directors' Report**

## For the year ended 31 March 2019

The Directors present their report and the audited financial statements of the Company for the year ended 31 March 2019.

### Future developments

Details of future developments have been included within the Strategic Report on page 1.

### Dividends

The Company has paid no interim ordinary dividends during the year (2018: £nil) and the Directors do not recommend the payment of a final dividend (2018: £nil).

### Financial risk management

The management of the Company and the execution of the Company's strategy are subject to a number of financial risks. The Directors have identified the need to manage the Company's material financial risks, including credit, liquidity, interest rate cash flow and foreign currency risks. Although the Company has a Finance Committee, the financial risk management of the Company is carried out by a central Treasury department operating under policies and guidelines approved by the Directors of National Grid plc. The National Grid Finance Committee, a committee of the National Grid plc Board, is responsible for regular review and monitoring of treasury activity and for approval of specific transactions.

Each year the Board reviews the effectiveness of the internal control systems and risk management processes covering all material systems, including financial and compliance controls, to make sure they remain robust. National Grid has specific internal mechanisms to govern the financial reporting process and the preparation of the Annual Report and Financial Statements. National Grid's financial controls guidance sets out the fundamentals of internal control over financial reporting, which are applied across the National Grid group, including NGG Finance plc. National Grid's financial processes include a range of system, transactional and management oversight controls.

As NGG Finance plc is a subsidiary undertaking of a parent undertaking subject to Disclosure Guidelines and Transparency Rule 7.1 and 7.2, it has used its immediate parent's audit committee as a suitable alternative body and it is not required to comply with the Financial Conduct Authority's requirements to report on compliance with, and application of, the UK Corporate Governance Code.

### **Treasury Policy**

All funding is approved by the National Grid Finance Committee and the use of derivative financial instruments is controlled by policy guidelines set by the National Grid plc Board. The Treasury function will raise all the funding for the Company and its subsidiary, and manages interest rate and foreign exchange risk.

The Treasury function is not operated as a profit centre. Debt and treasury positions are managed in a non-speculative manner, such that all transactions in financial instruments or products are matched to an underlying current or anticipated business requirement of National Grid. As part of its business operations, National Grid is exposed to risks arising from fluctuations in interest rates and exchange rates. National Grid uses derivative financial instruments ('derivatives') to manage exposures of this type and as such they are a useful tool in reducing risk. The policy is not to use derivatives for trading purposes.

## Credit risk

The Treasury function seeks to limit counterparty risk by conducting all of its banking and dealing activities with a limited number of major international banks, whose status is kept under review. No exposure is considered to exist in respect of intercompany loans as the subsidiaries are solvent and are covered by the National Grid group's liquidity arrangements.

## **Directors' Report (continued)**

## For the year ended 31 March 2019

### Financial risk management (continued)

### Liquidity risk

The Company finances its operations through a combination of retained profits, external bonds and intercompany loans. This is to ensure that the Company has sufficient long-term and short-term funds available for current operations and future activities.

### Interest rate cash flow risk

The Company has both intercompany financial assets and external financial liabilities which exposes it to interest cash flow risk. To the extent that the intercompany loan agreements are entered into they carry fixed and floating rates, the exposure to interest rate cash flow risk arises on floating rate loans on which interest is charged based upon sterling LIBOR. The external bonds pay a fixed rate of interest.

### Foreign currency risk

To the extent that external bonds and intercompany loan agreements are entered into in currencies different to that of the functional currency, there is an exposure to movements in exchange rates. The Company principally has euro denominated external bonds and intercompany loan assets as at the balance sheet date.

### Directors

The Directors of the Company during the year and up to the date of signing of the financial statements were:

A J Agg D C Bonar (Resigned 30 April 2018) S W Grant S C Humphreys A M Lewis A K Mead

### **Directors' indemnity**

National Grid has arranged, in accordance with the Companies Act 2006 and the Articles, qualifying third-party indemnities against financial exposure that Directors may incur during their professional duties. Equivalent qualifying third-party indemnities were, and remain, in force for the benefit of those Directors who stood down from the Board in prior financial years for matters arising when they were Directors of the Company. Alongside these indemnities, National Grid places Directors' and Officers' liability insurance cover for each Director.

### Going concern

The Directors are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

### **Disclosure of information to auditors**

Having made the requisite enquiries, so far as the Directors in office at the date of the approval of this report are aware, there is no relevant audit information of which the auditors are unaware and each Director has taken all reasonable steps to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information. This confirmation is given in accordance with the provisions of section 418 of the Companies Act 2006.

## **Directors' Report (continued)**

## For the year ended 31 March 2019

### Auditors

At the 2019 Annual General meeting of National Grid plc, the Company's ultimate parent company, Deloitte LLP were reappointed as external auditor to the group. Pursuant to section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed to the Company and Deloitte LLP will, therefore, continue in office.

### Statement of Directors' responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 "Reduced Disclosure Framework". Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors' Report was approved by the Board of Directors and was signed by order of the Board on its behalf by:

M Barnes Company Secretary 8 August 2019

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NGG FINANCE PLC

### Report on the audit of the financial statements

# Opinion

In our opinion the financial statements of NGG Finance plc (the 'Company'):

- give a true and fair view of the state of the Company's affairs as at 31 March 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 13, which includes a summary of significant accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We confirm that the non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters	The key audit matter that we identified in the current year was the recoverability of receivables from the immediate parent company.
Materiality	The materiality that we used in the current year was £13.2 million which was determined on the basis of 2% of net assets.
Scoping	Audit work to respond to the risks of material misstatement was performed directly by the audit engagement team.

### Summary of our audit approach

## **NGG Finance plc (continued)**

## Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the Directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recoverability of re	ceivables from the immediate parent company
Key audit matter description	Receivables from immediate parent company are stated in the balance sheet at £804 million (FY18: £796 million) due within one year and £2,073m (FY18: £2,092 million) due after more than one year.
	The recoverability of these receivables has been identified as key to the continuing viability of the Company and its ability to repay its borrowings.
e 19 - 52	Refer additionally to notes 7, 8 and 10.
How the scope of our audit responded to the key audit matter	We assessed intercompany receivables from the immediate parent company for recoverability against the retained earnings, profit for the year and current assets of the counterparty.
	In addition, we analysed if the counterparty has sufficient equity balance, earnings income and current assets to settle their obligation by reviewing the audited financial statements of the immediate parent company for the year ended 31 March 2019.
Key observations	Based on the work performed we concluded that receivables from the immediate parent company are appropriately stated.

## Independent auditor's report to the members of

## NGG Finance plc (continued)

## Our application of materiality

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Materiality	£13.2 million (FY18: £6.5 million)
Basis for determining materiality	2% of net assets (FY18: 1% of net assets)
Rationale for the benchmark applied	We determined materiality based on net assets as this is the key metric used by management, investors, analysts and lenders, with shareholder value being driven by total assets value movements.

We agreed with the Directors that we would report to the Directors all audit differences in excess of £0.66 million (FY18: £0.33 million), as well as differences below that threshold, which in our view, warranted reporting on qualitative grounds. We also report to the Directors on disclosure matters that we identified when assessing the overall presentation of the financial statements.

### An overview of the scope of our audit

Our audit was scoped by obtaining an understanding of the entity and its environment, including internal control, and assessing the risks of material misstatement. Audit work to respond to the risks of material misstatement was performed directly by the audit engagement team.

### Other information

The Directors are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

## Independent auditor's report to the members of

## NGG Finance plc (continued)

### **Responsibilities of Directors**

As explained more fully in the Statement of Directors' responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Details of the extent to which the audit was considered capable of detecting irregularities, including fraud are set out below.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: <u>www.frc.org.uk/auditorsresponsibilities</u>. This description forms part of our auditor's report.

## Extent to which the audit was considered capable of detecting irregularities, including fraud

We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and then design and perform audit procedures responsive to those risks, including obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion.

### Identifying and assessing potential risks related to irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- enquiring of management, including obtaining and reviewing supporting documentation, concerning the Company's policies and procedures relating to:
  - identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
  - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud;
  - the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations;
- discussing among the engagement team how and where fraud might occur in the financial statements and any potential indicators of fraud; and
- obtaining an understanding of the legal and regulatory frameworks that the Company operates in, focusing on those laws and regulations that had a direct effect on the financial statements or that had a fundamental effect on the operations of the Company. The key laws and regulations we considered in this context included the UK Companies Act, Listing Rules, and tax legislation.

## NGG Finance plc (continued)

## Audit response to risks identified

As a result of performing the above, we did not identify any key audit matters related to the potential risk of fraud or non-compliance with laws and regulations.

Our procedures to respond to risks identified included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with relevant laws and regulations discussed above;
- enquiring of management, the audit committee and in-house legal counsel concerning actual and potential litigation and claims;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- reading minutes of meetings of those charged with governance; and
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

## Report on other legal and regulatory requirements

## **Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Strategic Report or the Directors' Report.

### Matters on which we are required to report by exception

### Adequacy of explanations received and accounting records

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

### Directors' remuneration

Under the Companies Act 2006 we are also required to report if in **We have nothing to report in** our opinion certain disclosures of Directors' remuneration have not **respect of this matter.** 

We have nothing to report in respect of these matters.

## Independent auditor's report to the members of

## NGG Finance plc (continued)

## Other matters

#### Auditor tenure

Following the recommendation of the Audit Committee of National Grid plc, we were appointed by the Shareholders at the Annual General Meeting on 31 July 2017 to audit the financial statements for the year ending 31 March 2018 and 31 March 2019.

The period of total uninterrupted engagement including previous renewals and reappointments of the firm is two years, covering the years ended 31 March 2018 and 31 March 2019.

#### Consistency of the audit report with the additional report to the audit committee

Our audit opinion is consistent with the additional report to the audit committee we are required to provide in accordance with ISAs (UK).

### Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Douglas King FCA (Senior statutory auditor) For and on behalf of Deloitte LLP Statutory Auditor London, UK 13 August 2019

## Notes to the financial statements

## For the year ended 31 March 2019

### 1 Summary of significant accounting policies

NGG Finance plc is a public company, limited by shares. The nature of the Company's principal activities is set out in the Strategic Report on page 1. The Company is incorporated and domiciled in England with its registered office at 1-3 Strand, London, WC2N 5EH.

### (a) Basis of preparation

The financial statements of NGG Finance plc for the year ended 31 March 2019 were approved by the Board of Directors on 8 August 2019. The Company meets the definition of a qualifying entity under Financial Reporting Standard 100 (FRS 100) issued by the Financial Reporting Council. Accordingly, these financial statements have been prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101). In preparing these financial statements, the Company applies the recognition and measurement requirements of International Financial Reporting Standards (IFRS) as adopted by the EU, but makes amendments where necessary in order to comply with the Companies Act 2006 and sets out below where advantage of the FRS 101 disclosure exemptions has been taken.

These financial statements have been prepared on a historical cost basis and presented in pounds sterling, which is the currency of primary economic environment in which the Company operates. The 2018 comparative financial information has also been prepared on this basis.

These financial statements have been prepared on a going concern basis, which presumes that the Company has adequate resources to remain in operation, and that the Directors intend it to do so, for at least one year from the date the financial statements are signed. The Directors are not aware of any material uncertainties related to events or conditions that may cast doubt upon the Company's ability to continue as a going concern. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

These financial statements are presented in the format as set out in the Large and Mediumsized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410).

The following exemptions from the requirements of IFRS have been applied in the preparation of these financial statements of the Company in accordance with FRS 101:

- a cash flow statement and related notes;
- disclosures in respect of transactions with National Grid plc and its subsidiaries;
- disclosures in respect of capital management; and
- the effects of new but not yet effective IFRS standards.

The Company has adopted IFRS 9 'Financial Instruments' and IFRS 15 'Revenue from Contracts with Customers' with effect from 1 April 2018. The adoption of IFRS 9 has had no material impact and the adoption of IFRS 15 has had no impact on the Company.

The preparation of financial statements may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

There are no areas of judgement or key sources of estimation uncertainty that are considered to have a significant effect on the amounts recognised in these financial statements. Information about such judgements and estimations is contained in the notes to the financial statements.

The financial statements have been prepared in accordance with the Company's accounting policies approved by the Board of Directors and described below:

### Notes to the financial statements (continued)

## For the year ended 31 March 2019

### 1 Summary of significant accounting policies (continued)

#### (b) Tax

The tax charge for the period is recognised in the profit and loss account, the statement of comprehensive income or directly in equity according to the accounting treatment of the related transaction. The tax charge comprises current tax.

Current tax assets and liabilities are measured at the amounts expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amounts are those that have been enacted or substantively enacted by the reporting date.

#### (c) Foreign currency transactions and balances

Transactions in currencies other than the functional currency of the Company are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at closing exchange rates. Gains and losses arising on retranslation of monetary assets and liabilities are included in the profit and loss account.

#### (d) Financial instruments

The Company adopted IFRS 9 with effect from 1 April 2018. The comparatives are not required to be restated and are accounted for in accordance with IAS 39. Under IFRS 9 the Company has reported the following financial assets and liabilities, and the classification for each is dependent upon its contractual cash flows and for financial assets the business model it is held under. All financial instruments are initially recognised on trade date.

Financial assets that have contractual cash flows that are solely payments of principal and interest, and which are held within a business model whose objective is to collect contractual cash flows, are held at amortised cost. These instruments include loans to immediate parent company. For the purposes of impairment assessment loans to immediate parent company are individually assessed based on a review of solvency and liquidity arrangements.

Borrowings, which include interest-bearing loans and overdrafts, are recorded at their initial fair value which normally reflects the proceeds received, net of direct issue costs less any repayments. Subsequently these are stated at amortised cost, using the effective interest method. Any difference between proceeds and the redemption value is recognised over the term of the borrowing in the profit and loss account using the effective interest method.

### 2018

Loans receivable are initially recognised at fair value plus transaction costs and subsequently held at amortised cost using the effective interest method. A provision is established for impairments when there is objective evidence that the Company will not be able to collect all amounts due under the original terms of the loan. Interest income, together with gains and losses when the loans are derecognised or impaired, are recognised in the profit and loss account.

### (e) Equity instruments

An equity instrument is any contract that includes a residual interest in the assets of the Company after deducting all of its liabilities and is recorded at the proceeds received, net of direct issue costs, with an amount equal to the nominal amount of the shares issued included in the share capital account and the balance recorded in the share premium account.

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

## 2 Operating loss

5

6

£.	2019 £'000	2018 £'000
Operating loss is stated after charging:		
Services provided by the Company's auditor		
Audit fees of Company	32	31

Disclosure of non-audit fees is not required as these have been disclosed in the consolidated financial statements of National Grid plc.

### 3 Directors and employees

The emoluments of the Directors are not paid to them in their capacity as Directors of the Company and are payable for services wholly attributable to other National Grid subsidiary undertakings. Accordingly, no details in respect of their emoluments have been included in these financial statements. During the year, there were 4 Directors (2018: 5) who exercised share options in or received ordinary shares as part of long term incentive plans of the ultimate parent company, National Grid plc.

There were no employees of the Company during the year (2018: none).

## 4 Interest receivable and similar income

	2019 £'000	2018 £'000
Interest receivable from immediate parent company Exchange gains on revaluation of foreign currency denominated	112,761	112,004
intercompany loan and bank account	1	31,983
Exchange gains on revaluation of foreign currency denominated borrowings	19,739	_
	132,501	143,987
Interest payable and similar charges		
	2019	2018
	£'000	£'000
Interest payable to a fellow subsidiary undertaking	582	-
External interest payable	103,470	105,325

Exchange losses on revaluation of foreign currency denominated		
intercompany loan	19,739	-
	123,791	137,284
Тах		
	2019	2018
	£'000	£'000
Current tax: UK corporation tax	1,648	1,267

The tax charge for the year is equivalent to (2018: equivalent to) the standard rate of corporation tax in the UK of 19% (2018: 19%).

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

### 6 Tax (continued)

### Factors that may affect future tax charges

The main rate of UK corporation tax is reduced to 17% with effect from 1 April 2020.

The Directors will continue to monitor the developments driven by Brexit, the OECD's Base Erosion and Profit Shifting (BEPS) project and European Commission initiatives including fiscal aid investigations. At this time the Directors do not expect this to cause any material impact on future tax charges.

## 7 Financial risk factors

The activities of the Company expose it to a variety of financial risks including currency risk, interest rate risk, credit risk, liquidity risk and capital risk. The Company's risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential volatility of financial performance from these risks.

Risk management related to financing activities is carried out by a central treasury department under policies approved by the Finance Committee of the Board. The objective of the treasury department is to manage funding and liquidity requirements, including managing associated financial risks, to within acceptable boundaries. The Finance Committee provides written principles for overall risk management, as well as written policies covering specific areas such as foreign exchange risk, interest rate risk, credit risk, liquidity risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

The Company has exposure to the following risks, which are described in more detail below:

- currency risk;
- interest rate risk;
- credit risk;
- liquidity risk; and
- capital risk.

#### (a) Currency risk

The Company can obtain financing in various currencies and is exposed to foreign exchange risk arising from these, primarily with respect to the Euro.

The following table sets out the net asset position by currency:

		2019			2018				
	Sterling £'000	Euro £'000	US dollar £'000	Total £'000	Sterling £'000	Euro £'000	US dollar £'000	Total £'000	
Cash and cash equivalents Intercompany	75		17	92	75	-	17	92	
receivable	1,757,888	1,119,787	-	2,877,675	1,749,419	1,138,079	-	2,887,498	
Borrowings	(1,041,000)	(1,112,334)	-	(2,153,334)	(1,040,506)	(1,131,942)		(2,172,448)	
Other liabilities	(61,862)	ø	-	(61,862)	(59,598)	-	•	(59,598)	
Net asset position	655,101	7,463	17	662,571	649,390	6,137	17	655,544	

An estimate of the Company sensitivity to a 10% change in the Euro exchange rate results in a £1,411,000 (2018: £558,000) impact in the profit and loss account and net assets. This movement has an equal and opposite effect if the sensitivity increases or decreases by the same amount.

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

### 7 Financial risk factors (continued)

## (b) Interest rate risk

Interest rate risk arises from long-term borrowings. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. The Company's interest rate risk management policy is to seek to minimise total financing costs (being interest costs and changes in the market value of debt) subject to constraints.

The following table sets out the carrying amount, by contractual maturity, of borrowings that are exposed to interest rate risk:

	2019 £'000	2018 £'000
Fixed interest rate borrowings		
In one year or less	79,958	80,619
In greater than five years	2,073,375	2,091,829
	2,153,333	2,172,448

The following table sets out the net asset position by interest rate risk:

	2	019			2018			
Fixed-rate £'000	Floating -rate £'000	Other £'000	Total £'000	Fixed-rate £'000	Floating- rate £'000	Other £'000	Total £'000	
-	92	*	92	-	92		92	
2,168,033	709,642	-	2,877,675	2,184,631	702,867	-	2,887,498	
(2,153,334)	•	-	(2,153,334)	(2,172,448)			(2,172,448)	
-	(60,177)	(1,685)	(61,862)	-	(58,297)	(1,301)	(59,598)

An estimate of the Company sensitivity to 0.5% change in UK interest rates results in a £3,549,000 (2018: £3,515,000) impact in the profit and loss account and net assets. This movement has an equal and opposite effect if the sensitivity increases or decreases by the same amount.

### (c) Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to intercompany receivables.

At the reporting dates, the Company had a number of exposures to individual counterparties. In accordance with the Company's treasury policies and exposure management practices, counterparty credit exposure limits are continually monitored and no individual exposure is considered significant in the ordinary course of treasury management activity. Management does not expect any significant losses from non-performance by these counterparties. There are netting agreements in place with some counterparties: these had no effect on the credit exposure.

The Company does not believe there is any credit risk in relation to the amounts owed by/to the parent company and the amounts owed to fellow subsidiary undertakings.

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

## 7 Financial risk factors (continued)

### (d) Liquidity risk

The Company determines liquidity requirements by the use of both short-term and long-term cash flow forecasts. These forecasts are supplemented by a financial headroom analysis which is used to assess funding requirements for at least a 24 month period and maintain adequate liquidity for a continuous 12 month period. The following is an analysis of the contractual undiscounted cash flows payable under financial liabilities and derivative assets and liabilities as at the reporting date:

At 31 March 2019	Less than 1 year £'000	1 - 2 years £'000	2 – 3 years £'000	More than 3 years £'000	Total £'000
Non-derivative financial liabilities Borrowings Interest payments on borrowings <sup>(i)</sup> Other liabilities	(102,137) (61,862)	(1,077,513) (101,919) -	(102,077)	(1,000,000) (5,363,729) -	(2,077,513) (5,669,862) (61,862)
Total as at 31 March 2019	(163,999)	(1,179,432)	(102,077)	(6,363,729)	(7,809,237)
÷.	Less than 1	4.0	0	More than 3	
At 31 March 2018	year £'000	1 - 2 years £'000	2 – 3 years £'000	years £'000	Total £'000
Non-derivative financial liabilities Borrowings			(1,097,369)	(1,000,000)	(2.097,369)
Interest payments on borrowings (*) Other liabilities	(102,888) (59,598)	(102,982)	(102,762)	(5,512,401)	(5 821 033) (59 598)
Total as at 31 March 2018	(162,486)	(102,982)	(1,200,131)	(6,512,401)	(7,978,000)

<sup>(i)</sup> The interest on borrowings is calculated based on borrowings held at 31 March without taking account of future issues. Floating rate interest is estimated using a forward interest rate curve as at 31 March. Payments are included on the basis of the earliest date on which the Company can be required to settle.

#### (e) Capital risk

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an efficient mix of debt and equity funding, thus achieving an optimal capital structure and cost of capital. The Company regularly reviews the capital structure as appropriate in order to achieve these objectives.

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

## 8 Debtors

	2019 £'000	2018 £'000
Amounts falling due within one year Amounts owed by immediate parent company	804,299	795,669
Amounts falling due after more than one year Amounts owed by immediate parent company	2,073,375	2,091,829

In March 2013, the Company issued two fixed rate bonds listed on the London Stock Exchange with notional values of £1,000 million and €1,250 million. The consideration received was advanced to its immediate parent company, National Grid plc on the same terms to that of the securities. Other amounts owed by immediate parent company of £709,562,000 (2018: £702,867,000) are repayable on demand and earn interest receivable at a rate based on GBP LIBOR plus 20 basis points. The fair value of the amounts owed by immediate parent company approximates to their book values.

### 9 Creditors

		2019	2018
		£'000	£'000
	Amounts falling due within one year		
	Borrowings (note 10)	79,958	80,619
	Amounts owed to fellow subsidiary undertakings	61,827	59,564
	Other creditors	35	34

	Bonds	2,073,375	2,091,829
		2,010,010	
	Total	2,153,333	2,172,448
	Total borrowings are repayable as follows:		
	Less than 1 year	79,958	80,619
	Between 1 to 2 years	1,076,450	1,095,399
	More than 5 years - other than by instalments	996,925	996,430
		2,153,333	2,172,448

## Notes to the financial statements (continued)

## For the year ended 31 March 2019

## 10 Borrowings (continued)

The fair value of borrowings at 31 March 2019 was  $\pounds 2,279,771,000$  (2018:  $\pounds 2,380,012,000$ ). Where market values were available, fair value of borrowings (Level 1) was  $\pounds 2,279,771,000$  (2018:  $\pounds 2,380,012,000$ ). The notional amount at maturity of the debt portfolio is  $\pounds 2,077,513,000$  (2018:  $\pounds 2,097,369,000$ ).

The Company has in issue two fixed rate bonds as listed on the London Stock Exchange as follows:

Description of instrument (original notional lssueramount)	Maturity	First callable date
NGG Finance plc GBP £1,000 million 5.625% Fixed Rate Instrument	2073	2025
NGG Finance plc EURO 1,250 million 4.25% Fixed Rate Instrument	2076	2020
Share capital		
	2019 £'000	2018 £'000
Allotted, called up and fully paid		
1,925,000 (2018: 1,925,000) ordinary shares of £1 each	1,925	1,925

In line with the provisions of the Companies Act 2006, the Company has amended its Articles of Association and ceased to have authorised share capital.

### 12 Related party transactions

11

The Company is exempt under FRS 101.8(k) from disclosing transactions with National Grid plc and its subsidiary undertakings where all of the voting rights are held within the group. There were no related party transactions with other companies.

### 13 Ultimate parent company

The ultimate and immediate parent and controlling company is National Grid plc. The largest and smallest group which includes the Company and for which consolidated financial statements are prepared is headed by National Grid plc which is registered in England and Wales at the registered office below.

Copies of these consolidated financial statements can be obtained from the Company Secretary, National Grid plc, 1-3 Strand, London WC2N 5EH.
