“...delivered solid financial performance...”

"In the first half of this year we have delivered solid financial performance and continued to deliver strong organic growth at the top end of the 5 – 7% range. We also made good progress on our strategic priorities, including a multi-year, forward rate case in Massachusetts Electric, submitting our draft business plans for RIIO-2 in the UK and completed our acquisition of Geronimo.

Today’s announcement that we are increasing the Group’s own emissions reduction target from 80% to net zero by 2050 underlines our commitment to lead the industry towards a cleaner energy future. This objective will be supported by work in other areas, such as offering further energy efficiency programmes for our US customers, proposals for renewable natural gas and hydrogen blending programmes.”
