In October 2020 Chalton Village Association received funding towards their playground upgrade.

The play equipment in the village was nearly 30 years old and in need of replacement. The Parish Council were using their available funds to replace some equipment, and the CVA wanted to fund the addition of a climbing structure.

The grant contributed specifically to a "Pirate's Lair" climbing frame, which was specifically requested by children and their parents in a village survey.

As a result of the grant the village have improved facilities to support the physical activity of children and young people, as well as a place for local people to come together socially.

Mrs Deborah Grygiel, Association Treasurer commented that,

“These upgrades constitute a major improvement to the playground and feedback from children and parents is very positive.”
