# Sapperton Village Hall

**Community Grant  
Programme**

**Sapperton Village Hall was built in 1912 to provide a meeting place for residents of the village of Sapperton and surrounding rural area. The Hall is built in an arts and crafts style and is of international importance.**

**Organisation:** Sapperton Village Hall

**Project:** Heating upgrade

**Beneficiaries:**

Children aged 0 – 11: 80

People over 65: 40

**Location:** Cirencester

**Region:** South-West

**Impact:** Sapperton Gas Facility. Although well managed the facility has a direct impact on the Sapperton Community due to its location.

## £10,000

Awarded towards replacement of their heating system

In November 2020 Sapperton village hall was awarded £10,000 towards the replacement of their ageing heating system.

The village hall had an aged oil central heating system which broke down regularly, was inefficient and expensive to run. They wanted to replace this with a new heating system so that they could continue to provide an inviting space to the local community.

Sapperton village hall enables people to meet in a warm and friendly environment and to provide a respite in times of crisis and an area to assemble when needed.

As a result of the funding received they have been able to update the old oil fired heating system with new radiators, a super efficient oil boiler and a state of the art monitoring system.

This has led to a direct reduction in running costs and an increase to the much needed village hall income as a result of being able to welcome more community groups to their space.

Commenting on the funding, Mr Jonathan Bullock, Chair of the Village Hall Trustees, said,

“This new heating system has transformed the hall and has made it a pleasure to be in. Already there has been much interest in hiring with booking undertaken for Yoga classes, children's parties and toddler groups.

The transformation is truly excellent, we couldn't have done it without you!”
