

29 January 2020

Dear Neighbour

**National Grid overhead power line refurbishment – Newcomen Road lane closure and traffic signals**

I wrote in October to let you know we'll return to complete upgrade and maintenance work to the high voltage overhead power line. The line comes into Bedworth Heath, crossing Newcomen Road, Robinson Road and Goodyers End Lane on its way to Coventry substation. This work will start near you soon.

I'm writing now with details of a lane and footway closure on Newcomen Road starting very soon until 29 March 2020. We'll install two-way traffic signals, signage and pedestrian barriers on Newcomen Road and traffic warning signs on Robinson Road. The signals will operate continuously every day until the end of our work. We'll make sure residents can still access their homes, especially those properties between 59 and 69 on Newcomen Road.

The closure will provide a safe working area to access the pylon for our refurbishment work. The working involves lifting platforms over the footway and carriageway and using equipment to install new wire and fittings between the pylon spans. The line's power supply is switched off while we work.

Please see the map on the back of this letter for more information. Do allow extra time for your journey. We'll do our best to keep disruption to a minimum. We'll clear away the traffic management as soon as the work is complete.

I apologise for any disruption our essential work may cause and would like to thank you in advance for your patience. Our daily working hours are 7am to 6pm (excluding bank holidays).

Please contact our Community Relations Team on 0800 073 1047 or visit <http://www2.nationalgrid.com/uk/in-your-area/projects/colleshill-bedworth> if you have any questions. They're available daily from 7am to 7pm.

Yours faithfully

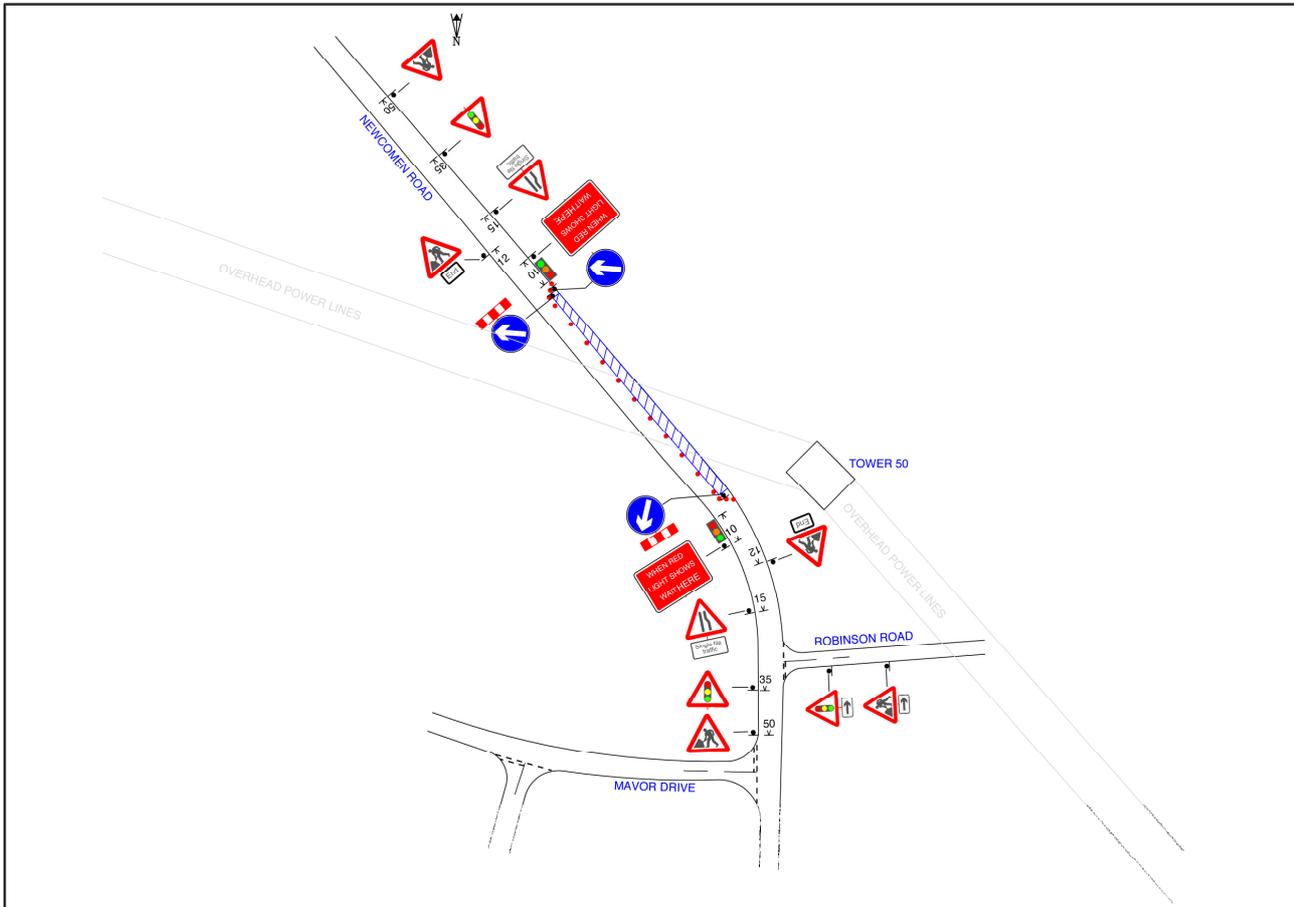

Nathan Oliver-Taylor  
**Project Engineer**
