## Project-wide construction programme.

Hinkley Connection Project.

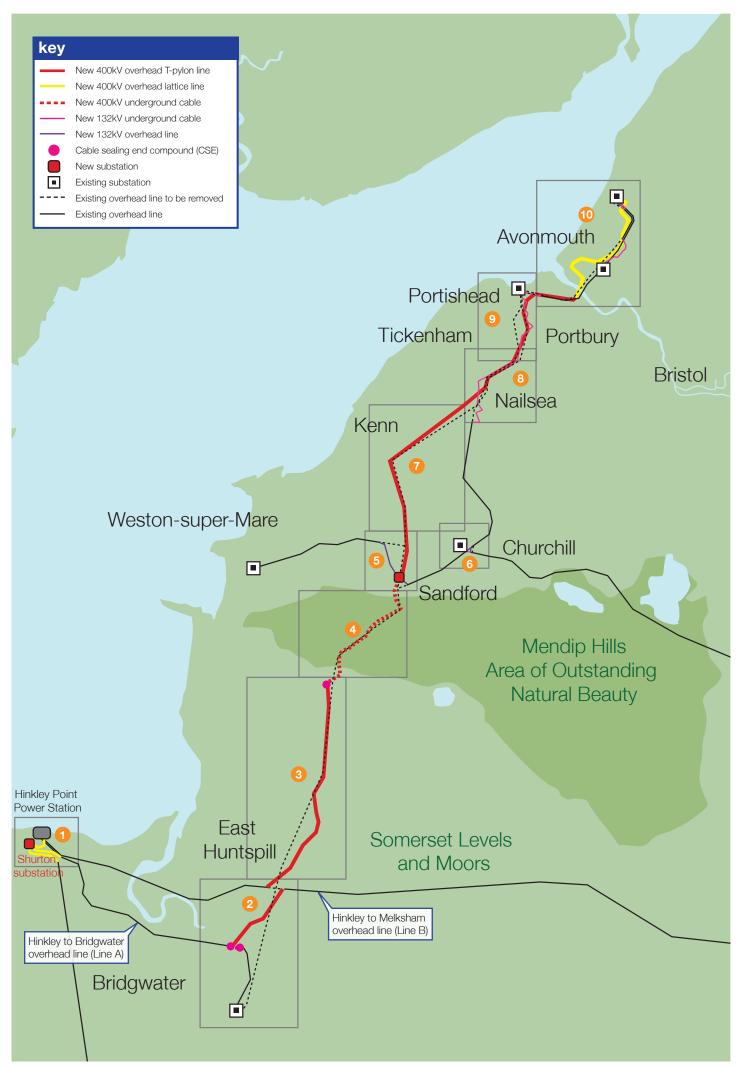

The Hinkley Connection Project is made up of many different elements – like a series of interconnected projects that take place at different times over several years.

We won't be working across the whole route, all of the time. We will be

working in areas in phases moving along the route of the connection as we go.

A more detailed programme will be available once contractors are appointed.

Where	2018	2019	2020	2021	2022	2023	2024	2025	2026	What
Hinkley Point area										<ul> <li>Build Shurton substation</li> <li>Modify existing overhead lines at Hinkley Point</li> <li>Upgrade Hinkley to Bridgwater overhead line</li> </ul>
Puriton Ridge area					_		_	•		<ul> <li>Build new overhead line northwards from Line B</li> <li>Remove existing overhead line</li> <li>Upgrade Hinkley to Bridgwater overhead line</li> <li>Build new overhead line (between existing lines A and B)</li> <li>Modify Bridgwater substation</li> <li>Build Bridgwater Tee underground cable</li> </ul>
East Huntspill to Mendips										<ul> <li>Build and access temporary haul road and site compound for Mendips underground cable work</li> <li>Build new overhead line</li> <li>Remove existing overhead line</li> </ul>
Mendip Hills										Build Mendip Hills underground cable     Remove existing overhead line
Sandford			-					_		<ul> <li>Build Mendip Hills underground cable</li> <li>Build Sandford substation</li> <li>Build new overhead line</li> <li>Remove existing overhead line</li> <li>Build connection to existing overhead line to Weston-super-Mare</li> <li>Build connection to existing overhead line to Churchill</li> </ul>
Churchill	_		•							Upgrade Churchill substation     Modify existing overhead lines to east of Churchill substation
Puxton to Kenn										Build new overhead line     Remove existing overhead line
Nailsea to Tickenham	-	_	_					_		<ul> <li>Underground existing overhead line between Nailsea and Portishead substation</li> <li>Build new overhead lines</li> <li>Remove existing overhead lines</li> </ul>
9 Tickenham to Portishead		_	_							<ul> <li>Underground existing overhead line between Nailsea and Portishead substation</li> <li>Build new overhead lines</li> <li>Remove existing overhead lines</li> <li>Modify Portishead substation and underground small section of overhead line</li> </ul>
<b>O</b> Avonmouth			<u> </u>					_		<ul> <li>Modify Avonmouth substation and overhead line to east of substation</li> <li>Modify Seabank 132,000 volt substation and existing overhead lines at Seabank</li> <li>Build new overhead line</li> <li>Remove existing overhead lines</li> <li>Modify Seabank 400,000 volt substation</li> </ul>
Across the vhole route	_									Landscaping, planting and reinstatement
