- Project order limits (red line boundary)
- 2024 preferred draft alignment overhead line
- 2024 preferred draft alignment underground cable
- Substations

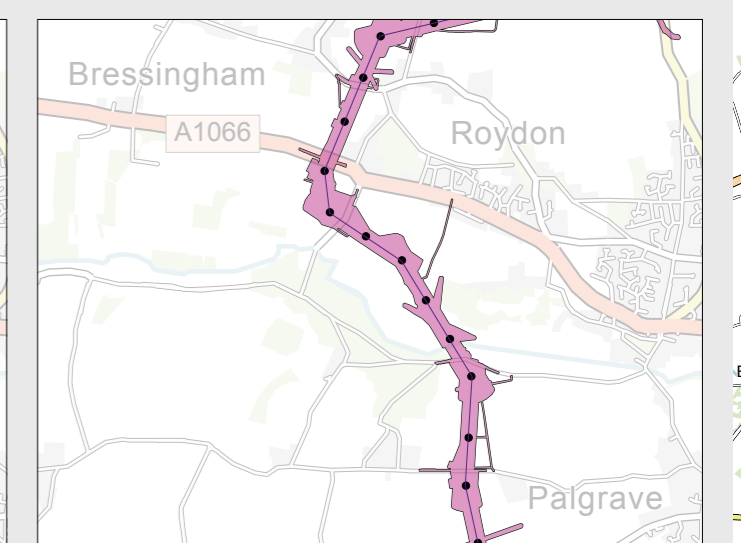

### Waveney Valley

In response to feedback from the 2023 consultation, we are considering proposals for a section of underground cables, known as the **Waveney Valley Alternative**.

This alternative would include the installation of approximately 2 km of underground cabling (and the substitution of 2 km of overhead lines from our proposals) and two additional GSE compounds (to join the high-voltage underground cables onto the overhead line) with associated access roads.
