Heat pump water heaters

Fuel type	Equipment type	Efficiency requirement	Rebate amount	Income qualified rebate amount***
Replacing Oil, Propane, Natural Gas or Electric Resistance	Heat Pump Water Heater	ENERGY STAR Certified UEF ≥ 3.30	\$750/unit**	Up to 100% of total install cost for qualified projects
	Heat Pump Water Heater (120volt/15amp circuit)	ENERGY STAR Certified UEF ≥ 2.20		
	Split-System Heat Pump Water Heater	ENERGY STAR Certified UEF ≥ 2.20	\$1,500/system**	

**Instant incentive applied at time of checkout from participating distributors. Lowe's and The Home Depot feature instant rebate or downstream options.

***Customers with pre-existing natural gas heating systems are not eligible for income qualified rebates. For information on available offers visit MassSave.com/Income.

Thermostat and controls

Limit three (3) rebates. Rebate not to exceed total install cost.

Product type	Efficiency requirement	Rebate amount
Programmable Thermostat	7-Day Programmable	\$25/unit
Smart Thermostat	ENERGY STAR certified	\$100/unit
Integrated Control***	Refer to MassSave.com/ICQPL	\$500/indoor unit

***Incentive only available for integrated controls installed on a previously installed, non-rebated heat pump system that will now displace a fossil fuel heating load.

Visit MassSave.com/Rebates for full details, eligibility requirements and submission dates.
