

SHIFT Commercial and Industrial Program

Financial Incentives for Building Optimization

Savings and High Impact Efficiency Funding Track (SHIFT)

From advanced heating, ventilation, and air-conditioning controls to refrigeration, compressed air, and process equipment upgrades, we can help you reduce the upfront cost of more efficient building equipment and support your business goals.

UNY Prescriptive Incentives			
Refrigeration Measures	Electric Incentive	Gas Incentive	Incentive Rate Units
Refrigerated Case Door: High Efficiency with NO anti-condensate heaters on existing vertical open reach-in display case	\$500	\$500	\$/ linear foot
Refrigerated Case Door: Standard Efficiency with anti-condensate heaters on existing vertical open reach-in display case	\$350	\$350	\$/ linear foot
Evaporator Fan Motor Replacement: Permanent Magnet Synchronous Motor (PMSM)	\$250	No Gas Incentives Offered	\$/motor
Anti-Condensation Heater Control	\$250		\$ per controlled door
Floating Head Pressure Control	\$300		\$ per controlled compressor horse power
Air-Cooled Refrigeration Condenser	\$3,000		\$/unit
Automatic Door Closer for Walk-In Cooler/Freezer	\$300		\$/unit
Evaporator Fan Control	\$500		\$/unit
LCI SHIFT Additional Measures	Electric Incentive	Gas Incentive	Incentive Rate Units
Energy Management System (EMS) - Guest Room	\$300	\$300	\$/guest room
Drain Water Heat Recovery	\$1,500	\$1,500	\$/unit
Kitchen Demand Control Ventilation	\$1,500	\$1,500	\$/HP
Compressed Air Measures	Electric Incentive	No Gas Incentives Offered	Incentive Rate Units
Air Compressors	\$500		\$/HP
Compressed Air Flow Controller	\$80		\$/HP
Low Pressure Drop Filters	\$50		\$/HP
Zero Loss Condensate Drains	\$1,000		\$/Unit
Refrigerated Air Dryers	\$20		\$/CFM

* Dual fuel customers can get an electric incentive or a gas incentive. All incentives will be capped at 65% project costs. Project maximum \$100,000.

Financial Incentives for Building Optimization *continued*

Custom incentives are available for qualifying projects outside the prescriptive pathway, including HVAC controls, refrigeration, compressed air, and process equipment upgrades.

Custom Incentives			
Industrial and Manufacturing Measures	Electric Incentive	Gas Incentive	Incentive Rate Units
Upstate NY Custom	\$0.20	-	\$/kWh
Upstate NY Custom	-	\$4	\$/therm

All incentives will be capped at 65% of project costs. Maximum incentives per custom project of \$250,000.

Eligibility

- Be a National Grid electric or gas customer
- Pay the Systems Benefits Charge (SBC)
- Use 250kW+ electric demand monthly, and/or
- 50,000 therms natural gas annually

For Contractors Register as a ProNet Member

- ProNet Membership is required to participate in LCI energy efficiency programs in New York.
- 5–10-minute process
- W9 and Certificate of Insurance
- Review and accept ProNet Terms & Conditions

How to Apply for SHIFT

Visit ngrid.com/shift-yny to find our application and email the completed application to SHIFTNYS@nationalgrid.com

ProNet Registration

Join our network of contractors and trade professionals delivering energy-saving solutions across New York.

For more information please visit: <https://pages.willdan.com/ngrid-pronet-registration#register-now>

or email: ngridpronet@nationalgrid.com

Customers located in Disadvantaged Communities (DAC) are eligible for increased project cost caps of 85% of project costs, subject to applicable program requirements and project maximums. Customers should work with their program representative to check: www.nyserda.ny.gov/ny/disadvantaged-communities
