NOTICE OF FILING, PUBLIC HEARING, AND REQUEST FOR COMMENTS

D.P.U. 26-GC-25

September 11, 2026

Petition of Boston Gas Company d/b/a National Grid for approval of a Firm Transportation Service Agreement between National Grid and Vicinity Energy Boston, Inc. (Scotia), pursuant to G.L. c. 164, § 94 and 220 CMR 5.03.

On August 28, 2026, Boston Gas Company d/b/a National Grid ("Company") filed with the Department of Public Utilities ("Department"), pursuant to G.L. c. 164, § 94 and 220 CMR 5.03, a request for approval of a Firm Transportation Service Agreement ("Agreement") between the Company and Vicinity Energy Boston, Inc. (Scotia) ("Customer") for service to the Customer's fuel plant at 19-27 Scotia Street, Boston, Massachusetts 02111. The filing consists of the following: (1) an explanatory cover letter; (2) a copy of the Agreement; (3) a marginal cost analysis; (4) a comparison of the proposed contract rate to the Company's otherwise applicable filed tariff rate; (5) a copy of the prior Firm Transportation Service Agreement that the Agreement is intended to replace ("2025 Agreement"); (6) a copy of the Customer's air quality plan permits; (7) a comparative cost analysis; and (8) an affidavit declaring that the Customer has a decarbonization strategy. Accompanying the filing are (1) a motion for protective treatment and (2) a plain language summary and outreach plan. The Department has docketed the petition as D.P.U. 26-GC-25.

The Company proposes a 12-month Agreement, effective November 1, 2026, subject to the Department's review and approval. This Agreement supersedes the 2025 Agreement, which went into effect November 1, 2025, also for a term of 12 months. The Agreement provides for an Annual Contract Volume of 300,000 million British Thermal Units and a Maximum Hourly Transportation Quantity ("MHTQ") of 150,000 cubic feet per hour ("cfh") on any day where Heating Degree Day is less than 50, and 0 on any day where HDD is equal to or greater than 50.¹ The Company may, at its sole discretion, allow the Customer to exceed the gas contract's MHTQ. In the event that the Customer exceeds its MHTQ without first obtaining the Company's

¹ "Heating Degree Day" or "HDD" means the departure of the daily mean temperature from sixty-five degrees Fahrenheit (65°F), as measured at Logan International Airport located in East Boston, Massachusetts, and reported to Company by its weather service provider (Initial Company Filing, Att. 1 § 1.9).

consent, the Company will charge the Customer an amount equal to five times the Daily Index.² The Customer asserts that it has dual fuel capability and can use ultra low sulfur diesel fuel oil as a competitive alternative to natural gas. The Company explains that the negotiated rate in effect for the Agreement exceeds the Company's marginal cost to provide this service to the Customer.

The Department will conduct a virtual public hearing to receive comments on the Company's filing. The Department will conduct the hearing using Zoom videoconferencing on **September 25, 2026**, beginning at 2:00 p.m. Attendees can join by entering the link, <https://us06web.zoom.us/j/86803073182>, from a computer, smartphone, or tablet. Any person who desires to participate in the evidentiary phase of this proceeding shall file a petition for leave to intervene no later than 5:00 p.m. on **September 25, 2026**. A petition for leave to intervene must satisfy the timing and substantive requirements of 220 CMR 1.03.
