THE NATIONAL GRID ELECTRICITY TRANSMISSION PLC (PENTIR TO TRAWSFYNYDD REINFORCEMENT AND REFURBISHMENT PROJECT) COMPULSORY PURCHASE ORDER 2026

THE NATIONAL GRID ELECTRICITY TRANSMISSION PLC (PENTIR TO TRAWSFYNYDD REINFORCEMENT AND REFURBISHMENT PROJECT) COMPULSORY PURCHASE ORDER 2026

THE ELECTRICITY ACT 1989

THE ACQUISITION OF LAND ACT 1981

National Grid Electricity Transmission plc (company registration number 02366977) (in this Order called the "Acquiring Authority") makes the following Order -

1. Subject to the provisions of this Order, the Acquiring Authority is under section 10 of and paragraph 1 of Schedule 3 to the Electricity Act 1989 hereby authorised to purchase compulsorily the land and the new rights in, on, under or over land described in paragraphs 2 and 3 ("Order Land") for the purpose of the construction, installation, commissioning, operation, alteration, monitoring and maintenance of electrical infrastructure and the decommissioning, removal, making safe and retention in situ of existing electrical infrastructure, comprising: a new substation and associated access road; installation of new and replacement 132 kV and 400 kV underground cable circuits; a new section of overhead line and underground cable to connect the new substation to the existing 132kV distribution network and modifications to existing overhead lines, including reconductoring, refitting, repositioning of existing towers, and installation of optical ground wire; installation of fibre optic cables and telecommunications infrastructure; new cable sealing end compounds and extensions and alterations to existing cable sealing end compounds; modifications to an existing tunnel head house; replacement and new cross-site underground cables at existing substations; new cable sealing ends, shunt reactor, and gantry; new and improved access roads and access road widening; removal of redundant cable, overhead line, and compound infrastructure and the making safe and retention in situ of redundant cable infrastructure; temporary construction compounds; temporary pumping stations and associated flood management works; footpath diversions; landscaping, ecological mitigation and environmental management works; mitigation land; together with related apparatus, works and infrastructure to facilitate the transmission of electricity within and across the network.

2. The land authorised to be purchased compulsorily under this Order is described in Table 1 of Schedule 1 and the land is shown coloured pink and edged red on maps prepared in duplicate, executed on behalf of the Acquiring Authority and marked "Map referred to in The National Grid Electricity Transmission plc (Pentir to Trawsfynydd Reinforcement and Refurbishment Project) Compulsory Purchase Order 2026" sheets 1 – 69.

3. The new rights authorised to be purchased compulsorily in, on, under or over land under this Order are described in Table 1 of Schedule 1 in accordance with the definitions at paragraph 9 below. The land over which those new rights are to be compulsorily purchased is shown coloured blue and edged red on the said maps.

4. Parts 2 and 3 of Schedule 2 to the Acquisition of Land Act 1981 are hereby incorporated with this Order subject to the modifications that references in Parts 2 and 3 of Schedule 2 to the Acquisition of Land Act 1981 to "the undertaking" shall be construed as including the works to be constructed and used by the Acquiring Authority in, on, over and under the land subject to this Order.

5. The Acquiring Authority may not serve a notice to treat or execute a general vesting declaration in respect of this Order after the end of the period of three years beginning with the day on which the compulsory purchase order becomes operative.

6. Where pursuant to this Order a new right is acquired by the Acquiring Authority it shall be exercisable at all times by the Acquiring Authority, its successors in title, lessees, licensees, assigns and those deriving title from them and all persons authorised by any of these.

7. In the Schedules to this Order, where a party's interest has already been identified and described in a plot then if they are identified in a later plot their address has not been repeated.

8. Notwithstanding paragraphs 1 and 2 and anything contained in Schedule 1 to this Order, nothing in this Order authorises the compulsory purchase of any existing estate, interest or right belonging to SP Manweb plc (company registration number 02366937) in, on, under or over the land described in paragraph 2, and each description of that land in Schedule 1 shall be read accordingly.

9. In this Order and in Schedule 1 to this Order (including the descriptions of the new rights set out below), the following terms shall have the following meaning, and words in the singular include the plural and vice versa:

THE NATIONAL GRID ELECTRICITY TRANSMISSION PLC (PENTIR TO TRAWSFYNYDD REINFORCEMENT AND REFURBISHMENT PROJECT) COMPULSORY PURCHASE ORDER 2026

TERMS USED IN THE NEW RIGHTS

Term	Meaning
"AIL"	Abnormal Indivisible Loads
"Authorised Development"	The reinforcement of Overhead Lines and cables on the existing circuits ('inland' A circuit and 'coastal' B circuit) between Pentir and Trawsfynydd substations in Northwest Wales, being: - • Replacement of existing underground cables and installation of new underground cables at the existing Pentir substation; • A new substation south of Bryncir village, associated infrastructure, a new access road, new underground 132 kV cables and new section of 132kV Overhead Line to connect the new substation to the existing SP Manweb plc Overhead Line; • The extension of the existing Wern CSEC including a new permanent access; a new Minffordd CSEC with permanent access; the removal of the existing Garth CSEC; modifications to existing tunnel headhouse, the decommissioning, making safe and removal of redundant sections of the existing 400 kV and 132 kV cables, cable bridges and associated infrastructure, and the retention in situ, monitoring, maintenance and future removal of other sections of those cables and associated infrastructure and the installation of new 400 kV cables to replace existing 400 kV and 132 kV cables; • Installation of new underground cables, and cable sealing ends, shunt reactor and a gantry and the widening of part of the existing access road in the fenced compound at Trawsfynydd substation; • Reconductoring and replacement of fittings on Overhead Line between Towers 4ZC005 and Tower 4ZC027 and replacement of the earthwire with Optical Ground Wire; • Reconductoring and replacement of fittings between Tower 4ZC044 and Tower 4ZC070 with 400 kV conductors and replacement of the earthwire with optical ground wire; • Installation of fibre optic cables along the earthwire between Towers 4ZC070 and Tower 4ZC140;

	• installation of two temporary pumping stations and associated flood management works as mitigation during the Glaslyn cables installation works to over-pump flood waters from Y Cyt and Afon Glaslyn into Llyn Bach; and • temporary construction compounds (including a main works compound); new and improved access roads, tracks, footpath diversions, landscaping, ecological mitigation and environmental management works; mitigation land, repositioning of towers, removal of redundant Overhead Line, telecommunications infrastructure, ancillary apparatus, works and infrastructure
"Cable Infrastructure"	Means the underground cables (including wires, earth wires, fibre optic cables and other communication cables, pipes, coatings and ducts), connections, cable draw pits, cable monitoring pits, Cable drainage pits, thermo couplers pits, cable joints, cable marker posts, cable terminals, earth bonding and tape, drains, culverts, fibre optic pits, inspection boxes, trenches, marking bands, protective boards or tiles, jointing pits, link boxes, link pillars, manholes, monitoring equipment, apparatus, conductors, supports, plant, equipment, pillars, warning tape, sheaths for transmitting and/or distributing electricity at such voltage as the Acquiring Authority or other licensed operators may from time to time require for the purposes of its or their operations together with other underground or overground equipment and apparatus associated with or ancillary to such underground cable, and includes any of the foregoing which has been decommissioned or is no longer used for transmitting or distributing electricity
"CSEC"	Means cable sealing end compound
"Order Land"	The land and rights described in paragraphs 2 and 3 of the Order
"Overhead Line"	Electric lines and conductors (including wires, earth wires, fibre optic cables and other communication cables, pipes, coatings and ducts and connections) for transmitting and/or distributing electricity at such voltage as the Acquiring Authority or other licensed operators may from time to time require for the purposes of its or their operations together with the towers for supporting the same and any ancillary equipment and apparatus associated with or ancillary to such electric lines and conductors

Cable Infrastructure Rights	All rights necessary for the purposes of or incidental to the construction, laying, placing, retention, commissioning, use, operation, protection, maintenance, surveying, testing, inspection, repair, altering, renewal, replacement, removal and decommissioning of Cable Infrastructure and associated infrastructure (including any cable bridge and its supports and foundations), including to: a) break open, excavate, regrade and/or reprofile the land and/or raise the level of the land (including for flood protection and to form working platforms) including by means of rock breaking, rock splitting, rock fracturing (by mechanical, hydraulic or other means), tunnelling, boring, directional drilling and any other method of ground treatment or removal necessary for the purposes of these Cable Infrastructure Rights and to install trench supports, lay ducts, bedding, surround and backfill material (including cement bound sand) and pull cables into and through ducts; b) instal, testing, maintenance, repair, reinstatement, and removal of earthing systems, earth electrodes, earthing conductors, earthing mats, link boxes, sheath bonding apparatus, and associated earthing equipment at or near cable joints, sealing ends, CSECs and transition compounds; c) Without prejudice to sub paragraph (a), use horizontal drilling, and other trenchless methods, where appropriate, for the installation, replacement or removal of the Cable Infrastructure on, in or under the land, including to form launch and receiver pits and to use store and process drilling fluid as well as carry out cable extraction; d) install and retain Cable Infrastructure monitoring equipment and from time to time, inspect, cleanse, maintain, repair and alter the monitoring equipment on, in or under the land; e) take all necessary rights of support for the Cable Infrastructure; f) test and commission the Cable Infrastructure and remedy initial faults and defects in it; g) enter the land and carry out surveys and investigations, including intrusive and aerial surveys (including the right to fly an unmanned aircraft over the land and to enter and retrieve and recover any such unmanned aircraft from the land); h) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land; i) enter any water within the land including to sail a boat or watercraft over the water;

	j) carry out works required or permitted by a planning permission and/or consent or licences on in, or under the land; k) install and remove protection measures for third parties' structures/assets including scaffolding on, in or under the land; l) erect, maintain and remove fencing, gates, walls or other boundary features on or in the land; m) erect, maintain and remove signage on the land; n) store and stockpile and where necessary use, manage and process plant, machinery, apparatus, cable drums, and materials (including excavated material) and/or equipment on, in or under the land and to bring cranes and crane pads onto the land and position and swing the jib of a crane, loaded or unloaded, through the airspace above the land; o) construct, lay down, use and remove access roads and haul roads including any necessary bridging, culverting or diversion of water courses and drains, modifying road verges and junctions and installing, using, altering, diverting, and removing services and utilities on, in or under the land; p) carry out de-watering and drainage works, including to cut, drain, purge, flush, cap, seal and grout Cable Infrastructure and install, alter, reinstate or remove land drainage systems for the Cable Infrastructure including monitoring pits on, in or under the land; q) discharge water into existing drains and watercourses on the land; r) protect and prevent damage to or interference with the Cable Infrastructure and its construction, operation, decommissioning or maintenance; s) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Cable Infrastructure Rights; t) erect, create, use and remove a works compound which may include hardstanding, portable cabinets, offices, security, parking of vehicles and welfare facilities including portable toilets, portable cabins and offices and electricity generators on the land; u) install, use and remove artificial lighting on the land; v) install, use, alter, divert and remove services and utilities on, in or under the land;

	w) reinstate or make good any damage caused as a result of the exercise of these Cable Infrastructure Rights including reinstating any planting, vegetation, hedges, walls or profiling; x) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and y) carry out any activities ancillary or incidental thereto; and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Cable Infrastructure Rights, including to: • prevent the carrying out of any works, excavations or other activities which could reasonably foreseeably undermine the stability, safety and integrity of, or damage or interfere with, the retention, commissioning, use, operation, protection, maintenance, surveying, inspection, repair, altering, renewal, replacement, construction, laying, testing, decommissioning or removal of the Cable Infrastructure; and • prevent any works on or use of the land that would prevent access to the Cable Infrastructure for any of the purposes referred to in these Cable Infrastructure Rights
Cable Infrastructure Decommissioning Rights	All rights necessary for the purposes of or incidental to the decommissioning of the Cable Infrastructure, and the retention, monitoring, maintenance and removal of any Retained Cable Infrastructure, including to: a) break open, excavate, regrade and/or reprofile the land and/or raise the level of the land (including for flood protection and to form working platforms) including by means of rock breaking, rock splitting, rock fracturing (by mechanical, hydraulic or other means), tunnelling, boring, directional drilling and any other method of ground treatment or removal necessary for the purposes of these Cable Infrastructure Decommissioning Rights and to install trench supports, lay ducts, bedding, surround and backfill material (including cement bound sand) and pull cables into and through ducts; b) take all necessary rights of support for the Cable Infrastructure (including any Retained Cable Infrastructure); c) instal, testing, maintenance, repair, reinstatement, and removal of earthing systems, earth electrodes, earthing conductors, earthing mats, link boxes, sheath bonding apparatus, and associated earthing equipment at or near cable joints, sealing ends, CSECs and transition compounds;

	d) Without prejudice to sub paragraph (a), use horizontal drilling, and other trenchless methods, where appropriate, for the installation, replacement or removal of the Cable Infrastructure on, in or under the land, including to form launch and receiver pits and to use store and process drilling fluid as well as carry out cable extraction; e) pass and re-pass with or without vehicles to temporarily bring cranes and crane pads onto the land for the purposes of siting and installation of the crane pad(s) and to position and swing the jib of a crane loaded or unloaded through the airspace above the land for the purposes of bringing machinery and equipment to, or removing it from, the land; f) retain permanently on, in or under the land any Cable Infrastructure which has been decommissioned (whether in whole or in part), together with any foundations, fill or encasement (including grout, bentonite or concrete), caps, seals and residual contents, in the condition in which it is left following its cutting, capping, draining, purging, grouting or other making safe and as subsequently altered from time to time pursuant to these Cable Infrastructure Decommissioning Rights (together the "Retained Cable Infrastructure"); g) at any time remove in whole or in part any Retained Cable Infrastructure, provided that nothing in these Cable Infrastructure Decommissioning Rights shall oblige the Acquiring Authority to remove any Retained Cable Infrastructure; h) install and retain monitoring equipment and from time to time, inspect, cleanse, maintain, repair, alter and drain any installed or existing monitoring equipment on, in or under the land; i) at any time and from time to time, inspect, monitor, test, drain, cleanse, maintain, repair or alter any Retained Cable Infrastructure including to empty sumps and remove oil and other contaminants; j) carry out surveys and investigations, including intrusive and aerial surveys (including the right to fly an unmanned aircraft over the land and to enter and retrieve and recover any such unmanned aircraft from the land); k) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land; l) enter any water within the land, including to sail a boat or watercraft over any water on the land;

	m) carry out works required or permitted by a planning permission and/or consent or licences on, in or under the land; n) install and remove protection measures for third parties' structures/assets including scaffolding on, in or under the land; o) erect, maintain and remove fencing, gates and walls or other boundary features on the land; p) erect, maintain and remove signage and cable marker posts on the land; q) store and stockpile and where necessary use, manage and process plant, machinery, apparatus, and materials (including excavated material) and/or equipment on the land; r) construct, lay down, use and remove access roads including any necessary bridging, culverting or diversion of water courses and drains, modifying road verges and junctions and installing, using, altering, diverting, and removing services and utilities on, in or under the land; s) carry out de-watering and drainage works, including to cut and drain purge, flush, cap, seal and grout Cable Infrastructure and install, alter, reinstate or remove land drainage systems for the Cable Infrastructure including monitoring pits; t) discharge water into existing drains and watercourses on or in the land; u) protect and prevent damage to or interference with the Cable Infrastructure (including any Retained Cable Infrastructure) and its decommissioning on, in or under the land; v) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Cable Infrastructure Decommissioning Rights; w) erect, create, use and remove a works compound which may include hardstanding, portable cabins, offices, security, parking of vehicles and welfare facilities including portable toilets, and electricity generators on the land; x) install, use and remove artificial lighting on or in the land; y) install, use, alter, divert and remove services and utilities on, in or under the land; z) reinstate or make good any damage caused as a result of the exercise of these Cable Infrastructure Decommissioning Rights including reinstating any planting, vegetation, hedges, walls or profiling;

	aa) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and bb) carry out any activities ancillary or incidental thereto; and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Cable Infrastructure Decommissioning Rights, including to: • prevent the carrying out of any works, excavations or other activities which could reasonably foreseeably undermine the stability, safety and integrity of, or damage or interfere with the decommissioning of the Cable Infrastructure or the retention, stability, integrity, monitoring, maintenance or removal of any Retained Cable Infrastructure; and • prevent any works on or use of the land that would prevent access to the Cable Infrastructure to be decommissioned or to any Retained Cable Infrastructure.
Construction Compound Rights	All rights necessary for the purposes of or incidental to the establishment, use and removal of works compounds associated with the Authorised Development, including to: a) erect, create, use and remove a works compound which may include hardstanding, laydown areas, stockpiles, portable cabins and offices, security and welfare facilities including portable toilets and electricity generators on the land; b) break open the land, excavate and/or regrade, reprofile and/or raise the level of the land (including for flood protection and to form working platforms) for these purposes; c) store, stockpile and where necessary use, manage and process plant, machinery, apparatus, materials (including excavated material) and/or equipment; d) construct, lay down, use and remove temporary access roads, haul roads, bell mouths and turning areas to and within the compound, including any necessary bridging, culverting or diversion of water courses and drains and modifying road verges and junctions; e) fence, erect hoardings, gates or signage or otherwise secure the compound; f) carry out de-watering and drainage works and install, alter, reinstate or remove land drainage systems in, on or under the land;

	g) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land; h) discharge water into existing drains and watercourses; i) install, use and remove artificial lighting in, on the land; j) park vehicles on the land; k) protect and prevent damage to or interference with the use, operation and maintenance of any works compound and any works constructed pursuant to these Construction Compound Rights; l) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Construction Compound Rights; m) pass and re-pass with or without vehicles to temporarily bring cranes and crane pads onto the land for the purposes of siting and installation of the crane pad(s) and to position and swing the jib of a crane, loaded or unloaded, through the airspace above the land, for the purposes of bringing machinery and equipment to, or removing it from, the land; n) install, use, alter, divert and remove services and utilities on, in or under the land; o) erect, use, maintain, repair, reinstate and remove temporary scaffolds; p) strip and store topsoil and subsoil, regrade and raise the level of the land (including for flood protection) and to form working platforms; q) create, use and remove bunded areas for the storage of fuels, oils, drilling fluid, waste and other materials, and temporary mud storage lagoons; r) install and remove protection measures for third parties structures/assets on, in or under the land; s) reinstate or make good any damage caused as a result of the exercise of these Construction Compound Rights including reinstating any planting, vegetation, hedges, walls or profiling;

	t) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and u) carry out any activities ancillary or incidental thereto, and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Construction Compound Rights.
Overhead Line Rights	All rights necessary for the purposes of or incidental to the construction, retention, commissioning, operation, protection, maintenance, surveying, repair, renewal, replacement, upgrading, removal, inspection, testing, altering and decommissioning of the Overhead Lines, including to: a) take all necessary rights of support for the Overhead Lines; b) install and remove protection measures for third party structures/assets, including scaffolding on, in or under the land; c) test and commission the Overhead Lines and remedy initial faults and defects in it at any time prior to the date on which it is energised and ready for operation; d) install, use, test, maintain, repair, reinstate and remove earthing systems, earth electrodes, earthing conductors, earthing mats and associated earthing apparatus in, on or under the land; e) break open the land, excavate and/or, regrade, reprofile and/or raise the level of the land (including for flood protection and to form working platforms) for these purposes; f) enter the land and carry out surveys and investigations, including aerial surveys (including the right to fly an unmanned aircraft over the land and to enter and retrieve and recover any such unmanned aircraft from the land); g) carry out archaeological works and environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, hedgerows, grassland and other planting, and any associated fences, guards and supports) on, in or under the land; h) climb, enter upon and work on towers and carry out reconductoring, restringing and earthwire and fibre optic works, including to install and remove jumpers, running out blocks, spacers, insulators and fittings, replace tower steelwork, establish and use puller and tensioner sites, equipotential zones, drum storage

	areas and ground anchors, and pull conductors, earthwires and fibre optic cables through the airspace above the land; i) carry out works required or permitted by a planning permission and/or consent or licences; j) erect, maintain and remove fencing, gates, walls or other boundary features or signage on or in the land; k) store and stockpile and where necessary use, manage and process plant, machinery, apparatus, and materials (including excavated material) and/or equipment on, under or in the land; l) construct, lay down, use and remove access roads including any necessary bridging, culverting or diversion of water courses and drains, modifying road verges and junctions and installing, using, altering, diverting, and removing services and utilities on, in or under the land; m) carry out de-watering and drainage works and install, alter, reinstate or remove land drainage systems on, in or under the land; n) erect, create, use and remove a works compound which may include hardstanding, portable cabins, offices, security, lay down areas, tower working areas, parking of vehicles and welfare facilities including portable toilets, portable cabins and offices and electricity generators on, in or under the land; o) pass and re-pass with or without vehicles to temporarily bring cranes and crane pads onto the land for the purposes of siting and installation of the crane pad(s) and to position and swing the jib of a crane, loaded or unloaded, through the airspace above the land, for the purposes of bringing machinery and equipment to, or removing it from, the land; p) discharge water into existing drains and watercourses on, in or under the land; q) protect and prevent damage to or interference with the operation, construction and maintenance of the Overhead Lines; r) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Overhead Line Rights; s) install, use and remove artificial lighting on, in or under the land; t) install, use, alter, divert and remove services and utilities in, on or under the land;

	u) prevent changes to the use, or level of the surface of, the land without the written consent of the Acquiring Authority (such consent not to be unreasonably withheld or delayed); v) dismantle, lower, disconnect, disassemble and remove the Overhead Line or any part of it, including towers, conductors, earthwires, insulators, fittings and foundations (provided that any foundation may be cut down and retained below ground level), and reinstate the land; w) reinstate or make good any damage caused as a result of the exercise of these Overhead Line Rights including reinstating any planting, vegetation, hedges, walls or profiling; x) enter any water on the land including the right to sail a boat or watercraft over the water; y) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and z) carry out any activities ancillary or incidental thereto, and rights to prevent and remove any works, structures, buildings or use of the land which may interfere with or obstruct such access or the exercise of these Overhead Line Rights, or cause any damage or risk to safety including to: aa) prevent the carrying out of any works, excavations or other activities which could reasonably foreseeably undermine the stability, safety and integrity of, or damage or interfere with the operation and maintenance repair, renewal, replacement, upgrading or removal of the Overhead Line; bb) prevent any works on or use of the land that would prevent access to the Overhead Lines for any of the purposes in these Overhead Line Rights; cc) prevent the erection of any building, works or structure (whether temporary or permanent) or the planting or growing of any plant or tree of any kind in or on the land; dd) prevent the storing or placing of any materials, equipment, vehicles or other items within or under any tower; and

	ee) prevent the raising of the level of the surface of the land without the written consent of the Acquiring Authority (such consent not to be unreasonably withheld or delayed and which consent may be granted subject to reasonable conditions).
Working Area Rights	All rights necessary for the purposes of or incidental to the replacement, upgrading, construction, commissioning, decommissioning and removal of the Authorised Development including to: a) break open, excavate, regrade, reprofile the land and/or raise the level of the land (including for flood protection and to form working platforms) including by means of rock breaking, rock splitting, rock fracturing (by mechanical, hydraulic or other means), tunnelling, boring, directional drilling and any other method of ground treatment or removal necessary for the purposes of these Working Area Rights; b) strip, store and reinstate topsoil and subsoil, and install, use and remove trackway, ground protection mats, stone pads, screw pile foundations and other temporary ground reinforcement on the land; c) enter the land and carry out surveys and investigations, including intrusive and aerial surveys (including the right to fly an unmanned aircraft over the land and to enter and retrieve and recover any such unmanned aircraft from the land); d) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land; e) use horizontal directional drilling and other trenchless methods, where appropriate, including to form launch and receiver pits and to use, store, recover and process drilling fluid (including by means of temporary mud lagoons and processing plant); f) remove, replace, fell, trim or lop trees, bushes, crops and other vegetation, including removal of hedgerows; g) erect, create, use and remove a works compound which may include hardstanding, portable cabins and offices, security, parking of vehicles and welfare facilities including portable toilets and electricity generators on the land;

	h) pass and re-pass with or without vehicles to temporarily bring cranes and crane pads onto the land for the purposes of siting and installation of the crane pad(s) and to position and swing the jib of a crane loaded or unloaded through the airspace above the land for the purposes of bringing machinery and equipment to, or removing it from, the land; i) carry out works required or permitted by a planning permission and/or consent or licences on, in or under the land; j) install and remove protection measures for third parties structures/assets on, in or under the land; k) store and stockpile and where necessary use, manage and process plant, machinery, apparatus, and materials (including excavated material) and/or equipment in, on or under the land; l) erect, use, maintain, repair, reinstate and remove temporary scaffolds; m) enter any water within the land including the right to sail a boat or watercraft over the water; n) carry out works to facilitate access including to construct, lay down, use and remove access roads and haul roads, including any necessary bridging, culverting or diversion of water courses and drains, modifying road verges and junctions and visibility splays and installing, using, altering, diverting, and removing services and utilities on, in or under the land; o) erect, maintain and remove fencing, walls, boundary features, and gates and erect hoardings, or signage or otherwise secure the working area; p) install, use and remove artificial lighting on the land; q) install, use, alter, divert, and remove services and utilities on, in or under the land; r) carry out permanent or temporary de-watering and drainage works for the Authorised Development including to install, alter, retain, maintain, operate or reinstate land drainage apparatus or systems and enter the land for the purposes of maintaining, repairing, renewing or operating that drainage; s) cut, drain, purge, flush, cap, seal and grout Cable Infrastructure, and install, alter, repair, reinstate or remove drainage systems for the Cable Infrastructure including monitoring pits and sumps on, in or under the land; t) discharge water into existing drains and watercourses on the land;

	u) reinstate or make good any damage caused as a result of the exercise of these Working Area Rights including reinstating any planting, vegetation, hedges, walls or profiling; v) enter the land and adjoining land with or without vehicles, plant, AIL, machinery, apparatus, equipment, materials and personnel for the purposes of these Working Area Rights; w) dismantle, lower, disconnect, disassemble and remove Overhead Line infrastructure including towers, pylons, conductors, earth wires, insulators, crossarms, fittings, foundations and associated apparatus in, on or above the land (provided that any foundation may be cut down and retained below ground level); x) install, use, test, maintain, repair, reinstate and remove earthing systems, earth electrodes, earthing conductors, earthing mats and associated earthing apparatus in, on or under the land; and y) carry out any activities ancillary or incidental thereto, and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Working Area Rights, including to prevent any works on or use of the land that would obstruct access to, or the carrying out of works within, the working area.
Access Rights	All rights necessary to pass and repass over the land to access the Order Land and adjoining land with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel for the purposes of constructing, installing, commissioning, operating, inspecting, surveying, maintaining, monitoring, repairing, altering, renewing, upgrading, replacing and removing and decommissioning the Authorised Development, including to: a) carry out de-watering and drainage works and instal, alter or reinstate or remove land drainage systems, on, in or under the land; b) carry out works to facilitate such access including to, construct, lay down, use and remove access roads including any necessary bridging, culverting or diversion of water courses and drains, modifying road verges and junctions, and bellmouths and installing, using, altering, diverting, and removing services and utilities; c) break open the land, excavate and/or reprofile the land for these purposes; d) erect, maintain and remove fencing and walls or other boundary features on or in the land as well as gates, and temporarily remove and reinstate existing walls, fences, hedges and gates; e) install, use and remove artificial lighting and install, use, alter, divert, and remove services and utilities on, in or under the land;

	f) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land g) access the Order Land and adjoining land for the purposes of horizontal directional drilling and other trenchless work, where appropriate, for the installation of the Cable Infrastructure and for scaffolding or other purposes related to the Authorised Development; h) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Access Rights; i) reinstate or make good any damage caused as a result of the exercise of these Access Rights including reinstating any planting, vegetation, hedges, walls or profiling; and j) carry out any activities ancillary or incidental thereto, and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Access Rights including to prevent any works on or use of the land that would obstruct access over the land for any of the purposes referred to in these Access Rights.
Drainage Rights	All rights necessary for the purposes of or incidental to the carrying out of permanent or temporary de-watering and drainage works for the Authorised Development and to install, alter, use, operate, inspect, maintain, reinstate, repair, renew or remove drainage systems, including to: a) carry out works to facilitate access to or along the land for these purposes including to construct, lay down, use and remove access roads including any necessary bridging, culverting or diversion of water courses and drains, and modifying road verges and junctions; b) enter the land and carry out surveys and investigations, including intrusive and aerial surveys (including the right to fly an unmanned aircraft over the land and to enter and retrieve and recover any such unmanned aircraft from the land); c) carry out archaeological works, environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land;

	d) carry out works required by the contractor by licences or consents on, in or under the land; e) remove, replace, fell, trim or lop trees, bushes, crops and other vegetation, including removal of hedgerows; f) store and stockpile and, where necessary, use manage and process plant, machinery, apparatus, and materials (including excavated material) and/or equipment on the land; g) erect, use, maintain, repair, reinstate and remove temporary scaffolds; h) enter any water within the land including the right to sail a boat or watercraft over the water; i) fence, erect hoardings, gates, or signage or otherwise secure the working area; j) install, use and remove artificial lighting on the land; k) install, use, alter, divert, and remove services and utilities on, in or under the land; l) carry out drainage works and install, alter, retain, maintain, operate, repair, reinstate or remove land drainage systems on, in or under the land, including to intercept, divert and reconnect existing field drains, to discharge water into existing drains, ditches and watercourses, and to construct, use, maintain and remove attenuation ponds, sustainable drainage systems, outfalls, headwalls and temporary culverts; m) protect and prevent damage to or interference with the operation and maintenance of any de-watering and/or drainage works and drainage systems; n) erect, create, use and remove a works compound including hardstanding which may include portable cabins and offices, and welfare facilities including portable toilets and electricity generators on the land for these purposes; o) reinstate or make good any damage caused as a result of the exercise of these Drainage Rights including reinstating any planting, vegetation, hedges, walls or profiling; p) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and q) carry out any activities ancillary or incidental thereto,

	and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Drainage Rights including to prevent any works on or use of the land that would obstruct access to, or damage or interfere with, any drainage works or drainage systems.
Landscaping and Ecological Mitigation Rights	All rights necessary for the purposes of or incidental to the installation, planting, inspection, retention, operation, protection, maintenance, monitoring, repair, renewal, replanting and replacement of landscaping or other ecological and/or environmental measures (including any mitigation required from time to time by any licence, consent or environmental management plan, and the construction, establishment, retention, protection, maintenance, monitoring and replacement of any artificial badger sett or other wildlife mitigation structure), relating to the Authorised Development, including to: a) use the land as a construction and maintenance compound, working area, lay down and parking areas for all plant, equipment, materials and vehicles required in connection with the exercise of these Landscaping and Ecological Mitigation Rights; b) prepare the land (including by cultivation, soil import and ground preparation) and create, plant, seed, water, weed, maintain, monitor, inspect, replace, relocate and remove trees, shrubs, hedgerows, grassland, woodland and other planting and habitat, together with any associated fencing, guards, supports, irrigation and signage, on, in or under the land; c) construct, establish, monitor, inspect, retain and maintain and where necessary replace or relocate any artificial badger sett or other wildlife mitigation structure on the land and to carry out any works reasonably necessary to ensure the continued establishment and viability of such sett or structure; d) fell, trim or lop trees, shrubs, hedges and bushes and to clear and remove any and all vegetation which may damage, obstruct or interfere with the exercise of these Landscaping and Ecological Mitigation Rights; e) reinstate or make good any damage caused as a result of the exercise of these Landscaping and Ecological Mitigation Rights including reinstating any planting, vegetation, hedges, walls or profiling; f) all rights necessary to access the land and adjoining land for the above purposes with or without vehicles, AIL, plant, machinery, apparatus, equipment, materials and personnel; and g) carry out any activities ancillary or incidental thereto, and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Landscaping and Ecological Mitigation Rights or which may damage, disturb or prejudice the establishment, retention or viability of any landscaping, planting, habitat, artificial badger sett or other wildlife mitigation structure on the land.

Flood Mitigation Rights	The right to install, retain, use, inspect, test, monitor, maintain, repair, adjust, alter, replace, operate and remove temporary flood pumping apparatus in connection with the Authorised Development on, over and under the land, including pumps, suction and discharge pipework, pipe bridges, manifolds, screens, valves, flanges, pipe supports, foundations, hardstanding and all associated fixings, connections and ancillary apparatus, and to discharge water through such apparatus including from and into a watercourse or water body, including the following rights- a) the right to install, retain, use, inspect, maintain, repair, adjust, alter, replace and remove electrical control equipment, generators, fuel storage cubes, battery equipment, telemetry and level-sensing apparatus, acoustic enclosures, cabling and all associated ancillary equipment on the land; b) the right to carry out all works reasonably necessary for the installation, operation, maintenance, repair, replacement, removal and reinstatement of the apparatus and equipment referred to in these Flood Mitigation Rights, including the works referred to in sub paragraphs (c) - (f) below c) the formation and maintenance of hardstanding areas and compacted aggregate surfaces and bunded areas; d) the removal of topsoil and vegetation and the carrying out of levelling works; e) the erection, installation, retention, maintenance, repair, replacement and removal of temporary pipe bridges, pipework, supports, fixings and all associated apparatus over, across or above any highway, street, public right of way or access track forming part of or crossing the land, including all necessary abutments, supports and protective structures on either side of such highway; f) the erection and removal of screening, fencing and acoustic enclosures; g) the right to carry out archaeological works, and environmental and/or ecological mitigation and landscaping works (including any mitigation required from time to time by any licence, consent or environmental management plan) and create, plant, use, maintain, monitor, inspect, replace, relocate, and remove ecological mitigation measures and landscaping (including trees, shrubs, hedgerows, grassland and other planting, and any associated fencing, guards and supports) on, in or under the land; h) the right to reinstate or make good any damage caused as a result of the exercise of these Flood Mitigation Rights including reinstating any planting, vegetation, hedges, walls or profiling; i) the right to install, use, maintain and remove artificial lighting, CCTV, security and alarm systems and communications equipment (including antennae and remote monitoring apparatus) on the land;

	j) the right to pass and repass over the land at all times with or without vehicles, plant, machinery, AIL, apparatus, equipment, personnel and materials for all purposes connected with the exercise of these Flood Mitigation Rights, including for the purposes of delivery, installation, inspection, maintenance, testing, operation, repair, replacement, removal, reinstatement and emergency response; k) the right to occupy and use the land temporarily for all purposes connected with the exercise of these Flood Mitigation Rights, including as a working area, laydown area, storage and stockpiling area (including for excavated material, plant, machinery, apparatus, materials and equipment), crane positioning area and site compound area during the installation, maintenance and removal of the apparatus; l) the right to enter the land and carry out environmental surveys, ecological surveys, archaeological monitoring, water level monitoring and any other investigations required in connection with the installation, operation, maintenance and removal of the flood pumping apparatus; and m) the right to cut, lop, trim or remove trees, hedgerows, shrubs and other vegetation on or overhanging the land to the extent reasonably necessary for the exercise of these Flood Mitigation Rights, and rights to prevent and remove any works or use of the land which may interfere with or obstruct such access or the exercise of these Flood Mitigation Rights, including to prevent any works on or use of the land that would obstruct access to, or damage or interfere with the operation of, the flood pumping apparatus.
