Dear Sir/Madam,

Cock Alley Substation, Chesterfield, Section 37 application withdrawal of Derbyshire County Council objection

Further to Derbyshire County Council's ("DCC") Form B objection dated 13 August 2026 ("the Objection") in respect National Grid's proposed application for Section 37 Consent at Chesterfield, DCC hereby formally withdraws the objection. This results from ongoing engagement between DCC and National Grid which has considered and addressed the concerns raised in the objection to our reasonable satisfaction.

As a result of this withdrawal of the Objection, DCC also confirms that the proposed conditions set out in paragraph 4 of Part 3 to the objection are no longer required, as the issues which those proposed conditions sought to regulate are no longer of concern.

Please therefore treat this letter as confirmation of DCC's formal withdrawal of the objection and the formal withdrawal of the request for the abovementioned proposed conditions.

Yours sincerely,

Richard Sandbach
Principal Planner, Strategic Planning
