The Great Grid Upgrade

Grimsby to Walpole

nationalgrid

Targeted consultation

November 2026

The consultation will run from 12 noon on 3 November 2026 until 11:59pm on 8 December 2026.

Grimsby to Walpole is a proposed 140 km overhead line with six new substations between Northeast Lincolnshire and north Norfolk. It is needed to reinforce the electricity network and connect new sources of electricity planned in the area.

We would like your feedback on two proposed changes to Grimsby to Walpole:

Proposed highway works on School Road and Salts Road

Proposed UK Power Networks connection between Walsoken and Walpole B substations

Your feedback will help inform the final design.
