

Milford Haven Jun-Oct '22 - Weekly Capability and Capacity Release Tracker *all volumes in kWh/d*

Capacity Effective For	Weekly System Entry Capacity (WSEC) Auction Held on	Applicable Capability ¹ from Revised Entry Capacity Release consultation - NGG's Joint Response	Weekly Capability Assessment	Capacity Utilised in Capacity Release Calculation	Capacity to be Released in Weekly Auction ²
30th May - 5th June	Fri 20th May	748,000,000	715,000,000	748,000,000	305,000,000
6th June - 12th June	Fri 27th May	693,000,000	704,000,000	704,000,000	261,000,000
13th June - 19th June	Fri 3rd June	693,000,000	671,000,000	693,000,000	250,000,000
20th June - 26th June	Fri 10th June	693,000,000	693,000,000	693,000,000	250,000,000
27th June - 3rd July	Fri 17th June	693,000,000	704,000,000	704,000,000	261,000,000
4th July - 10th July	Fri 24th June	693,000,000	693,000,000	693,000,000	270,000,000
11th July - 17th July	Fri 1st July	693,000,000	-		tbc
18th July - 24th July	Fri 8th July	693,000,000	-		tbc
25th July - 31st July	Fri 15th July	693,000,000	-		tbc
1st August - 7th August	Fri 22nd July	682,000,000	-		tbc
8th August - 14th August	Fri 29th July	682,000,000	-		tbc
15th August - 21st August	Fri 5th August	682,000,000	-		tbc
22nd August - 28th August	Fri 12th August	682,000,000	-		tbc
29th August - 4th Sept	Fri 19th August	726,000,000	-		tbc
5th Sept - 11th Sept	Fri 26th August	726,000,000	-		tbc
12th Sept - 18th Sept	Fri 2nd September	726,000,000	-		tbc
19th Sept - 25th Sept	Fri 9th September	726,000,000	-		tbc
26th Sept - 2nd Oct	Fri 16th September	748,000,000	-		tbc
3rd Oct - 9th Oct	Fri 23rd September	748,000,000	-		tbc
10th Oct - 16th Oct	Fri 30th September	748,000,000	-		tbc
17th Oct - 23rd Oct	Fri 7th October	748,000,000	-		tbc
24th - 30th Oct	Fri 14th October	748,000,000	-		tbc
31st Oct - 6th Nov	Fri 21st October	950,000,000	-		tbc

NOTE: in the weeks where the "capacity effective for" period straddles two calendar months (bolded dates in the table)...

¹ ...for capability, the *higher* capability of the two monthly capability levels will be applied to maximise the capacity released.

² ...for capacity, in line with the weekly auction rules the highest capacity sold level from either of the two months that overlap the weekly auction will be deducted from the calculated capability level to generate the capacity to be released. Depending upon the day ahead capability any remaining unsold would then be released at the day ahead auction.

Information provision timescales

On a weekly basis, this table will be uploaded with new information as follows:

- Capability will be reassessed and published 3-4 working days in advance of the WSEC auction date
- Capacity for release will be calculated and published 1-3 working days in advance of the WSEC auction date
