

Exercise Revive

NEC National Gas Supply Emergency Exercise 2010

Exercise Revive - Structure

- NEC exercise planned for 10th/11th November.
- The exercise will take place over two days.
- Players – NEMT, GNCC, DNCCs, DNs, Shippers, Large Gas Users (Interruption & Firm Load Shedding), Interconnectors, LNG Importation Terminals and Storage Operators.
- Designed to test procedures, external communications and industry response.
- HSE representatives will attend.

Exercise Revive - Test

- Once again, the HSE are likely to be very interested in the effectiveness of:
 - Emergency interruption (post UNC Mod 090)
 - FLS above 25k therms pa (post UNC Mod 090)
 - DN Isolation & Restoration

The emergency procedures and communications between all exercise players and wider industry will be tested.

It is the responsibility of Shippers to ensure that End-Users Emergency Contact details are up to date
