

Winter Preparation

Winter preparations

- In preparation for winter, National Grid will be holding a series of webinars through September.
- These include:
 - Emergency preparations and exercises
 - Re-run of the Capacity actions webinar
 - Operational activities and actions
 - Overview of the information we provide

- If there is demand, we could also run an additional session to allow you to pre-submit questions on any physical or commercial operations question and run a Q&A session
- If you have any queries or would like to suggest further topics or submit questions, please email GasOperations.ShipperLiaison@nationalgrid.com or 01926 656474.
