

GBREMIT Central Collection and Publication Service

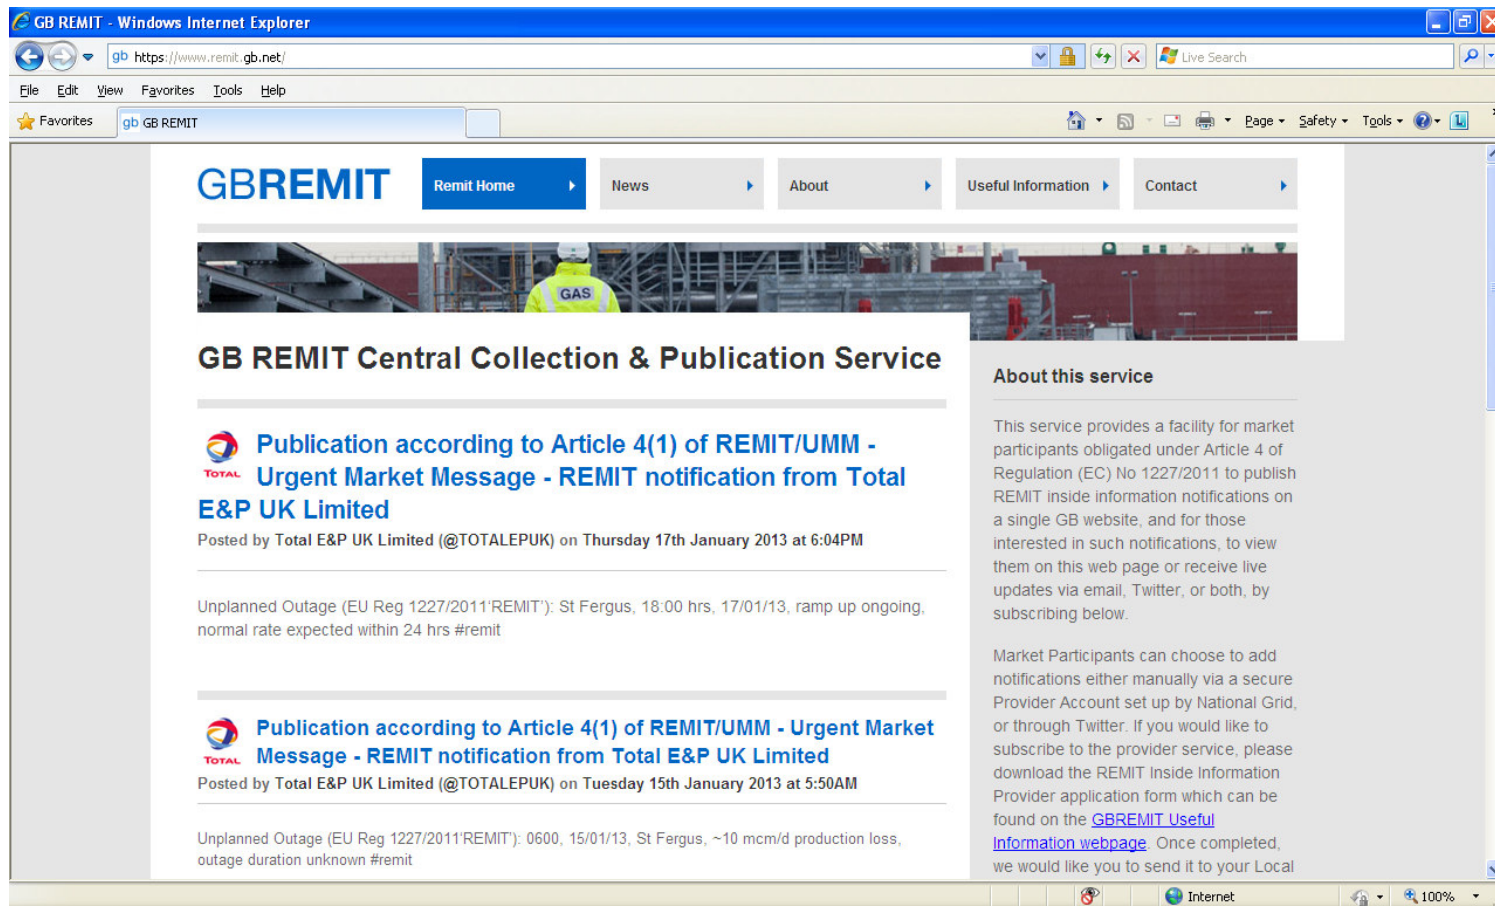

The Service

- GBREMIT has been live since October 2012.
- National Grid provides the GB Central Platform, free of charge, and it is available to REMIT notification providers and wider market participants to use
- Users are not required to publish elsewhere
- Twitter upload feature means notifications can be tweeted and will appear on the website, conforming to ACER guidelines
- To date:
 - 26 users have register as Providers from 17 organisations
 - 282 registered to receive notices via email and 50 following on twitter
 - 2 REMIT notices have been posted

History

The first official notice was published 15th January and was sent via Twitter by TOTAL E&P, quickly followed by the second two days later

The screenshot shows a Windows Internet Explorer browser window displaying the GB REMIT website. The browser's address bar shows the URL <https://www.remit.gb.net/>. The website header includes the GBREMIT logo and a navigation menu with links for Remit Home, News, About, Useful Information, and Contact. Below the header is a banner image of a worker in a yellow high-visibility jacket with 'GAS' written on the back, standing in an industrial setting. The main content area features two urgent market messages:

GB REMIT Central Collection & Publication Service

Publication according to Article 4(1) of REMIT/UMM - Urgent Market Message - REMIT notification from Total E&P UK Limited
Posted by Total E&P UK Limited (@TOTALEPUK) on Tuesday 15th January 2013 at 5:50AM

Unplanned Outage (EU Reg 1227/2011'REMIT'): 0600, 15/01/13, St Fergus, ~10 mcm/d production loss, outage duration unknown #remit

About this service

This service provides a facility for market participants obligated under Article 4 of Regulation (EC) No 1227/2011 to publish REMIT inside information notifications on a single GB website, and for those interested in such notifications, to view them on this web page or receive live updates via email, Twitter, or both, by subscribing below.

Market Participants can choose to add notifications either manually via a secure Provider Account set up by National Grid, or through Twitter. If you would like to subscribe to the provider service, please download the REMIT Inside Information Provider application form which can be found on the [GBREMIT Useful Information webpage](#). Once completed, we would like you to send it to your Local

Test Notification sent in Error

A Test notice was accidentally posted to the live site on 4th January 2013.

The sequence of events was:

- 14:55:20 – REMIT Notification posted
- 14:59:29 – REMIT Notification removed from GBREMIT
- 15:01:00 – Tweet deleted
- 15:11:00 – Tweet published informing the market that the REMIT Notification was posted in error
- 15:13:17 – News Item published informing the market that the REMIT Notification was posted in error

Causes of event

- User had access to both live and test environments
- Test & live look identical
- No "are you sure" box
- Test message did not include the word "test"

Actions taken

- Introducing highly visible differences between Test and Live versions of GBREMIT
- Inclusion of dialogue box asking the user to confirm posting to Live
- Separation of responsibility and access between Test and Live

Upcoming Live Testing

- New functionality needs testing
- Appropriate notices to be issued in advance of the test
- Posts will be removed once the tests have been completed
- Expected within next few weeks.
