1 Introduction

Welcome to the CUSC Panel Headline Report. This shall be produced after every CUSC Panel meeting and aims to provide all of our key stakeholders / interested parties with an overview of the headlines and key decisions the Panel are currently managing. Full minutes of the meeting will be produced and approved at the next meeting of the CUSC Panel and will then be published on the website.

All presentations given at this Modifications Panel meeting can be found in the Modifications Panel area on the National Grid website¹

We would welcome any comments you may have.

2 New Proposals

CMP300 'Cost Reflective Response Energy Payment for Generators with low or negative marginal costs National Grid Legal Separation changes to CUSC'. The purpose of these modification proposals is to ensure that the Response Energy Payment paid to or by generators with respect to a BM Unit with low or negative marginal costs is reflective of the cost or avoided cost of energy production.

The Panel reviewed the Proposal and agreed that the Proposal should be developed by a Workgroup following a standard timetable. The Code Administrator will write out to the industry requesting nomination to join the Workgroup.

3 Next Meeting

The next normal Panel meeting will take place on 29 June 2018 at National Grid House.
