

Modifications Progress Update

Grid Code Review Panel – 17 January 2018

GC0096 and GC0097

GC0096: Storage, Definition and Assignment of Technical Requirements for Storage Technologies:

- This Modification is at Workgroup stage.
- A Workgroup meeting was held on the 15 January 2018 where the Workgroup discussed the legal text for the modification
- Preferred approach by Workgroup is to use GC0100-102 as baseline legal text once approved by the Authority
- **Workgroup request to carry out Workgroup Consultation once decision received from Authority on GC0100-102**

GC0097:TERRE:

- The Workgroup Consultation was opened, as planned, on 8 January 2018. The Consultation is due to close on the 26 January.
- The next Workgroup meeting, to discuss the responses will be held on 7 February 2018.

GC0098 and GC0099

GC0098: Using GB Grid Code data to construct the EU Common Grid Model in accordance with Regulation (EU) 2015/1222 (CACM) and Regulation (EU) 2016/1719 (FCA)

- Ofgem are due to provide an update early in the new year following their review of the appeal.
- **GC0099: Establishing a common approach to interconnector scheduling consistent with the single intraday market coupling processes set out within Regulation (EU) 2015/1222 (CACM)**
- The WACMs have been submitted and are under review ahead of scheduling the next Workgroup meeting to be held on 24 January 2018.
- The Workgroup Report is due back at the February Panel meeting.
- Should the Workgroup vote on the proposed alternatives and also carry out their Workgroup Vote on the 24th the Report will be back as scheduled.

GC0100, GC0101 and GC0102

GC0100: EU Connection Codes GB Implementation – Mod 1

GC0101: EU Connection Codes GB Implementation – Mod 2

GC0102 EU Connection Codes GB Implementation – Mod 3

- The Code Administrator Consultation opened on the 12 January 2018 and will close on the 2 Feb 2018.
- Draft Final Modification Reports to be issued to Panel 5-6 February 2018
- When the Panel Recommendation Vote will be held – discussion required
- Final Modification Reports to be issued to the Authority mid February 2018

GC0103

GC0103: Introduction of Harmonised Applicable Electrical Standards

- An action is ongoing to determine the proposed timetable
- Workgroup meeting to be set up for late Feb 2018 to look at actions and potential alternatives
- Workgroup Documentation available online - <https://www.nationalgrid.com/uk/electricity/codes/grid-code/modifications/gc0103-introduction-harmonised-applicable-electrical>

GC0104 & GC0105

GC0104: EU Connection Codes GB Implementation – Demand Connection Code

- The next Workgroup meeting will be held on the 23 January 2018.
- Requesting a **one month extension to the timetable**. This would mean that the Workgroup Report will be presented to the April 2018 Panel meeting. This would result in the Final Modification Report being submitted to the Authority by the end of June 2018.

GC0105: System Incidents Reporting

- Initial Workgroup meeting to be held in February and Workgroup nominations have been issued and close today.
- 4 Workgroup members so far, Panel happy to have a smaller Workgroup?

GC0106

GC0106: Data exchange requirements in accordance with Regulation (EU) 2017/1485 (SOGL)

- Third Workgroup convened on Friday 12th January 2018. Code mapping was completed for Articles 40-53 of the SOGL.
- Workgroup Consultation will follow the finalisation of the KORRR in March 2018.
- Workgroup Report due to be submitted to the Panel in June 2018.
- All KORRR and supporting reference papers for the meeting are available on the National Grid website:
 - <https://www.nationalgrid.com/uk/electricity/codes/grid-code/modifications/data-exchange-requirements-accordance-regulation-eu-0>

GC0107

GC0107: The open, transparent, non discriminatory and timely publication of the generic and/ or PGM specific values required to be specified by the relevant TSO(s) and / or relevant system operator et al., in accordance with the RfG.

- The first Workgroup meeting was held on Monday 18 December 2018 where the Workgroup held discussions on whether the modification is required for compliance. All Workgroup members stated that it was not required for compliance with the exception of the Proposer.
- Panel and Ofgem stated that this modification is not required for Compliance and as such we need to discuss the timetable at this Panel meeting.
- Website updated with proposal and can be accessed online via:
