### 1 Introduction

Welcome to the Grid Code Review Panel Headline Report. This report is being published immediately after the Grid Code Review Panel meeting and aims to provide all our key stakeholders/interested parties with an overview of the headlines and key decisions made and being managed by the Panel. Full minutes of the meeting will be produced and approved at the next Grid Code Review Panel meeting in July and will then be published online.

All material presented or referred to at the June Grid Code Review Panel meeting can be found in the Grid Code Calendar area on the National Grid website<sup>1</sup>

We welcome any comments from industry.

### 2 New Proposals

**No new modifications were raised at this Panel.**

### 3 Current Modifications - Key Updates

**GC0112: National Grid Legal Separation Grid Code changes to incorporate NGENSO.** The Panel agreed that the Terms of Reference had been met and that the modification can proceed to being issued to Code Administrator Consultation. This will be issued ahead of 24 August 2018. The Panel will hold their Recommendation Vote at the September Panel meeting ahead of submission of the Final Modification Report to the Authority.

<sup>1</sup> <https://www.nationalgrid.com/uk/electricity/codes/grid-code?calendar>

**GC0108: Emergency and Restoration: Black Start Testing Requirement.** The Panel reviewed the Draft Final Modification Report that had been submitted to them. In light of the responses received to the Code Administrator Consultation the Panel decided that they would re-consult on revised legal text under GR22.4. The Code Administrator Consultation will be issued ahead of 24 August 2018. The Panel will hold their Recommendation Vote at the September Panel meeting ahead of submission of the Final Modification Report to the Authority.

**GC0110 Limited Frequency Sensitive Mode – Over-frequency (LFSM-O).** The Panel reviewed the Draft Self-Governance Report and carried out their Self-Governance Vote. The Panel unanimously agreed that the modification better facilitates the Grid Code objectives and should be implemented. The appeal window for this modification will open shortly ahead of implementation at the start of October 2018 if no appeals are received.

The Authority noted that they would be making a decision on **GC0097 Project TERRE** and **GC0104 EU Connection Codes GB Implementation – Demand Connection Code** within the next two weeks.

### 3 Next Meeting

The next Panel meeting will take place on **27 September 2018** at National Grid House, Warwick.
