

II Runs for 01.01.2018 & 02.01.2018 Suspended for Today

National Grid BSUoS Charging Circular

10th January 2018

Further to yesterday's notice of the delayed II run this note provides an update on the issue. Due to ongoing issues that we are still working to resolve we have been forced to suspend II run processing for a further day. Further work will be undertaken to resolve this issue today and we are hopeful that II run processing will resume tomorrow.

Key Information

As per our notice yesterday a billing simulation identified some issues with system data that would affect BSUoS II run processing, the following runs due to be processed today have therefore been suspended.

01.01.2018 II
02.01.2018 II

These issues currently only affect II runs so the SF and RF runs for the settlement days listed below will be processed as normal today.

16/11/16 RF
13/12/17 SF

Our billing team along with the relevant support teams continue to work on this issue and we hope to resume II run processing tomorrow.

Please accept our apologies for the inconvenience of this action and rest assured that we are doing everything in our power to prevent further delays and occurrences of this nature.
