

# Payments schedule for new gas transmission assets

Version 2

## 1. Easement payment to landowner

Under the terms of the Agreement to Grant an Easement and following the grant of a Development Consent Order, National Grid will have an option to take entry onto land to construct new gas transmission assets and following construction to complete the Easement.

### Easement for access over third party land for construction and future maintenance activities:

**£1000** per holding

### Pipeline per metre run:

**80%** of the agreed agricultural land value over the easement width (minimum land value £7500/hectare)

**50%** of the agreed non-agricultural land value over the easement width (minimum land value)

### Easement Payment Instalments

- **25%** payable on completion of Agreement to Grant an Easement
- **50%** payable on taking entry onto land for construction under Agreement to Grant an Easement
- **25%** on completion of Easement following construction together with any other payment already agreed

## 2. Payments for surveys and investigation works

Whilst voluntary agreement is always sought, National Grid has statutory rights to gain access to land for surveys and investigation works.

As a result these payments are not payments for the grant of access rights, but are payments in recognition of damage and disturbance that potentially may be caused by survey and investigation works.

The initial walkover assessment to determine potential survey requirements will not attract a payment. However for any actual surveys, boreholes etc undertaken, National Grid will make the following payments:-

---

#### Surveys:

For night time visits between 21:00 – 06:00 -
